Anyone can play the revolutionary Hams Chard Organ without taking one music lesson!

Until you have played the Hammond Chord Organ, you'll probably find the facts about it hard to believe. Yet every statement is true. Thousands of people who have never before played eny instrument, who didn't know one note of music, actually played the Hammond Chord Organ the

first time they tried.

How is it possible? This new kind of instrument is designed so that you play beautiful accompaniment chords signed so that you play beautiful accompaniment chords by pressing a button with one finger; you play the melody from simple picture music (or standard music if you prefer); pedal notes are harmonized automatically. In a few days you'll perform pieces you once would never have

attempted without lessons.

Even practice is fun! Hundreds of selections, both popular and classical, are included with your Hammond Chord Organ—you learn by playing the music you like.

Hard to believe? Stop in, spend half an hour in private with the Hammond Chord Organ. Prove it to yourself.

The Hammond Chord Organ

Piano Fights Back at Fighting Man

THE LONG-SUFFERING canteen plane, beaten and banged by the serviceman, is at last fighting back—at least so far as the British are concerned. Pictured trying to do the impossible—to park his glass on the sloping top—is a tommy. Sloping sides and keyboard also discourage similar attempts with glasses or cigarettes. Other fighting features: solid oak construction, brass kicking plate around pedala, capper keyboard ends (for ashtray use) and non-inflammable, cigarette-stainless, plastic keys. Already in use in a London barracks, the plane may soon be defying tommies where they stand against Communism in places like Horea and Malaya.

Ocean temperatures hover in the 70's all along the Jersey shore

e Taxpayers Association are not complete disagreement," the

Commission agrees fully on the

of local government. The solution, the Commission believes, is \$55 to \$60 million additional state aid from revenues other than the property tax.

The Taxpayers Association, on the other hand, criticized the Commission's report, the memo said, as proposing extensive additional state aid "without even the slightest attention to the need for economy. The Taxpayers recommended that no action on additional state aid be taken until a new state commission is set up to jnquire into New Jersey's public school system.

"Actually, the Commission and "state aid "without even the slightest attention to the need for economy. The Taxpayers recommended that no action on additional state aid be taken until a new state commission is set up to Jnquire into New Jersey's public school system.

"Actually, the Commission and "state aid the real-estate tax is inadequate for that purpose, it is preferable for municipalities to resort to their own taxing authority rather than look to the State ..." This policy, the report stated, would require the State to delegate additional taxing power to local governments.

The report concluded by stress; ing that the Tax Study Foundation, as a fact-finding group, would take no stand on any specific proposals but would continue to provide factual material for better public understanding.

"Actually, the Commission and the project work an must have been municipalities to resort to their divisions. Division I is for Vegetables, Home Garden variety.

The Pepartment will have ten divisions. Division II for Vegetables, Market and Garden varieties. There are a total of 1: classes with four ribbon awards in each class. Francis Mansue is in charge.

Division III is devoted to Flowers with lassing provent to their day to the project work an must have been project work an must have been for municipalities. To resort to their day not taxing authority rather than look to the State tax is inadequate for their day not taxing authority rather than look to the State tax."

The Department will have ten divisions. D Houses, Wild Flowers, collections of forest disease or insect specimens, mounted. Division V covers Shop Work. THURSDAY, AUGUST 14, 1952

The "long arm of the tax collector" is no idle expression when
the tax collector is Uncle Sam.

The most recent "summary of
internal revenue collections" released by the U. S. Treasury Department makes a list as long as
your arm and shows the collector's fingers to be in a great
many places.

More than 80 categories of tax

More than 80 categories of tax
ation are involved. These range
from the familiar individual and
corporation income taxes to levies upon "renovated butter" and solution of the latter impositions are part of a list of
billion dollars to the Federal Government in fiscal 1951.

Total Federal Government internal revenue collections for the
discal year which ended June 30,
1951, exceeded 50 billion dollars.
This compared with slightly under
39 billion dollars the year before.
New Jersey taxpayers contributed nearly one and one-half billion dollars, or 2.89 per cent of
the fiscal 1951 national total, according to the Treasury's tabulation.

Many of these taxes and a long

Remember, it's not a closed-up house that creates that stuffly feeling: its the lack of air in motion.

That means getting the number and tize of fans recommended to circulate or exchange all of the air in the room or rooms to be cooled once every two or three minutes in cooler northern areas. This means that the rated air delivery (CFM) of fans nust be approximately equal to the ubicled site of the frooms where they are med. You get this measurement by multiplying the length, by the width by the height of the roomsend comparing that figure with the tFM for the rated speed of the fan.

When you have the proper equipment, you proceed as follows: or hot.

Remember, it's not a closed-up house that creates that stuffly feeling: its the lack of air in motion.

To cool of the bedroom: if the room, raise both windows from the bottom. Place the fan in the bottom openings of the single-window room. Place the fan in the bottom openings of the two-window room. This enables the fan to exhaust the bot air from the room. The exhaust opening should be alightly larger than the diameter of the fan, including the protective case, if any. The fresh air intake should be frum two to three times that of the exhaust opening. Locate the fan form one to two diameters of the sanson hits its peak. But the fan blades away from the window.

THE GOVERNOR'S SHOW—
ESPECIALLY ON TV

While the President will help Governor Stevenson launch his Governor Stevenson launch his evening speech in Milwaukee, following the candidate's noon address in Detroit, it is now apparent that Adlai and not Harry will make the whistle-stops.

The Governor Stevenson and the present company sold more than 285,000 veholes that should concern us most, lowing the candidate's noon address in Detroit, it is now apparent that Adlai and not Harry will make the whistle-stops.

The Governor Stevenson launch his during their first year in dross in Detroit, it is now apparent that Adlai and not Harry will make the whistle-stops.

The answer we think, lies not so much in the ability of others to follow, as in our continued ability to lead. And this depends, not on wage-scales, but the preservation of the American system of presenting opportunity to all, and fitting rewards to those who win make the whistle-stops.

The Governor's SHOW—
Studebaker brothers built three wagons during their first year in business, and the present company sold more than 285,000 veholes are again in suspension, we are writing letters to the enemy, to which, on the basis of past persisting opportunity to all, and fitting rewards to those who win have blazed, not merely for our-lawer blazed. In other words, he should tell his tank jockeys to go play in tell his ta

thing of a compromise—unquestionably reflect the fact that that policy-makers in both parties have come to the conclusion that the American people want no part of either socialized survey has indicated that, and it is an interesting sidelight on CURIOUSER AND CURIOUSER a Republican candidate who would the fabulous development of lathe situation that the recent Congresses haven't even bothered. Washington, D. C.—The strang-

tors—recognizes these problems and it vitally interested in their ultimate solution. But the great majority want them to be solved without compulsory political tax measures of the type which have ominously reduced the standards of medical as a short period of time to better serve our health needs. Far greater progress will come in the future on a voluntary basis.

OPS Retrenches

The Office of Price Stabilization must soon cut its staf in half-from 12,000 to about 6,000 employes-because of heavy budget reductions imposed by Congress.

As is to be expected, OPS and other officials are saying that the result will be to cripple the whole price control program, and that the consumer will be the greatest suffer. That may seem a compelling argument to many people. Bt it is purely a superficial argument which ignores the long-term dangers the controls create and the damage they do to the econ-

Controls, by their very nature, attempt to replace the natural law of supply and demand with fallible human judgment. Political expediency—the everlasting search for votes and patrolias and power—often influences that judgment. Business is enmeshed in red tape, and harried with volumes of complex, confused and conflicting rules and regulations. Everyone from the biggest manufacturer down to the corner retail store is bossed by bureaucrats and jobholders who frequently have small understanding of the matters with which

dimmed, lethargy sets in. If the controls are of the "tough" variety which short-sighted people have demanded, the inevitable result is a drop in the production and distribution of goods of many kinds-people won't spend their time and money and energies trying to do a job if they see no chance

Until you have played the Hammond Chord Organ, you'll

propancy and are mens about at nard to beneve. Iet every statement is true. Thousands of people who have never before played any instrument, who didn't know one note of music, actually played the Hammond Chord Organ the first time they tried.

How is it possible? This new kind of instrument is deaigned so that you play beautiful accompaniment chords by pressing a button with one finger; you play the melody from simple picture music (or standard music if you prefer); pedal notes are harmonized automatically. In a few days you'll perform pieces you once would never have

attempted without lessons.

Even practice is fun! Hundreds of selections, both popular and classical, are included with your Hammond Chord Organ-you learn by playing the music you like. Hard to believe? Stop in, spend half an hour in private with the Hammond Chord Organ. Prove it to yourself.

The Hammond Chord Organ MUSIC'S MOST GLORIOUS VOICE

" I've just heard a wonderful story... and it's about you!

I was listening to a wonderful story about a patriotic person, a wise and thrifty one; one I respect and admire. You.

By tying your prosperity and your country's safety firmly together through Bond saving, you're writing the most exciting success story the world has ever seen. Your story is sort of a personal thing with ms. We're on the same team. And I'm proud of it, for you see, I'm a Defense Bond owner, too.

I wonder if you know all the good things that Defense Bonds mean to us. For example:

interest for 10 more years after it reaches the original madate—without our lifting a finger! THIRD—During the 10-year extension period, every unmatured bond earns at the new, higher interest rate (average 3% compounded semiannually). Our original \$18.75 can now pay us back \$33.67. \$37.50 pays back \$67.34. And so on.

M FOURTH-When we make ourselves and our families econor ically secure through buying bonds, we're helping to build the great coonomic strength that backs up our national defense.

And this is the best security our money can buy. For after two world wars we have found that peace is few the strong!

U. S. Defense Bonds are one of the easiest, most convenient forms of saving ever invented. For through the Payroll Savings Plan where you work, you can buy bonds on a time payment plan. Just specify the payments, as large or as small as you like, and they will be automatically set aside from your salary. This way you save the money before you spend it. And millions of people have found this is one sure way to save.

Peace is for the strong...for peace and prosperity save with U.S. Defense Bonds! .

broject and thereby win recognition for outstanding talent and industry. This is a serious program because all industry needs young men with the skill and craftsmanship to make good engineers. The fine, new plants, the shining new equipment, are only tools They need the right hands and brains to use them.

In the years ahead it is from programs like this that industry also takes away excess oil.

What are little girls made off Sugar and spice, of course, which is all very nice, but wise mothers know that they are also made of good grooming. And good grooming habits start early. To sid mothers in teaching their youngsters the ways of good grooming. Stanley Home Service has prepared some hints for a healthier and more attractive appearance.

1. Brush hair regularly whether the hair is oily or dry. Strangely enough, vicorous brushing, night and morning will actually in prove either of these conditions.

Brushing stimulates the scalp and also takes away excess oil.

In a few days school bells will

Inside the mine, the reporter watched the men work. First-aid kits, gas masks and other safety equipment were situated at 500-foot intervals.

Inside the mine, the reporter watched when mise stated the men work. First-aid kits, gas masks and other safety equipment were situated at 500-foot intervals.

Inside the mine, the foreman told him, had been instructed in first aid.

The reporter large of foreman the foot of 500 foot 50 Community Chest has mailed out coin-saver booklets in which to insert 19 quarters . . . a quarter each Friday until the end IT'S HAPPENED BEFORE

The reporter also saw that huge fans brought in fresh air and removed used air. The fans keep the temperature at a year-round level of from 60 to 65 degrees.

A mine such as this is not a rare exception—it is typical of the present-day coal industry. There are occasional dissectively in the strong leadership, the derman deadership that ters, of course—just as there are in a thousand other lines of criterprise. But when it comes to promoting safety, and to reducing the death and accident rate, coal mining need bow-to mone.

Things One Remembers

The government's stabilization chiefs predict higher prices. A child could safely make such predictions with strike-enforced wage increases and resulting higher production costs forcing price increases and resulting higher production costs forcing price increases.

But back of it all stands a wagteful government spending more than the taxpayer can—pay, thus depreciating the yalue of the dollar and lowering its purchasing power.

The politicians try to hide these facts and fool the people.

The politicians try to hide these facts and fool the people.

They say the increase in the price of steel will cost the average tion. Board-set the unexpectedly high steel wage boost which bring back Bill Oatis.

ORGAN

HAVE TO

TO

Until you have played the Hammond Chord Organ, you'll probably find the facts about it hard to believe. Yet every statement is true. Thousands of people who have never before played any instrument, who didn't know one note of music, actually played the Hammond Chord Organ the first time they tried. How is it possible? This new kind of instrument is de-

signed so that you play beautiful accompaniment chords by pressing a button with one finger; you play the melody from simple picture music (or standard music if you predays you'll perform pieces you once would never have attempted without lessons.

Even practice is fun! Hundreds of selections, both popular and classical, are included with your Hammond Chord

Organ—you learn by playing the music you like.

Hard to believe? Stop in, spend half an hour in private with the Hammond Chord Organ. Prove it to yourself.

There's no obligation! The Hammond Chord Organ

To you know why your

Defense Bond owner. It's the story about a patriotic person, a wise and thrifty one; one I respect and admire. You.

By tying your prosperity and your country's safety, firmly together through Bond saving, you're writing the most exciting success story the world has ever seen. Your story is sort of a personal thing with ms. We're on the same team. And I'm proud of it, for you see, I'm a Defense Bond owner, too.

I wonder if you know all the good things that Defense Bonds mean to us. For example:

FIRST-Thanks to new Treasury regulations, every Series E Bond we buy begins earning interest after only 6 months. It earns 3% interest compounded semiannually when held to maturity-It reaches full maturity value earlier (9 years 8 months) and the

SECOND—Every Series E Bond we own can now go on earning interest for 10 more years after it reaches the original maturity bond carns at the new, higher interest rate. (average 3% com-pounded semiannually). Our original \$15.75 can now pay us back \$33.67. \$37.50 pays back \$67.34. And so on.

#FOURTH—When we make ourselves and our families economically secure through buying bonds, we're helping to build the great economic strength that backs up our national defense. And this is the best security our money can buy. For after two world wars we have found that peace is for the strong!

U.S. Defense Bonds are one of the easiest, most convenient forms of saving ever invented. For through the Payroll Savings Plan where you work, you can buy bonds on a time payment plan. Just specify the payments, as large or as small as you like, and they will be automatically set aside from your salary. This way you save the money before you spend it. And millions of people have found this is one sure way to save.

Peace is for the strong... for peace and prosperity save with U.S. Defense Bonds!
