You'd like the way Norm fished. Anybody would.

It was a real pleasure to go fishin' with him. Because you knew beforehand you were going to have a good time, whether you caught any fish or not.

He was grinning when he picked you up in the early morning hours, long before most people got happy, and all the way to the lake showed his pleasure at being able to go fishing.

Once he get there he began kidding the girl at the earle where we always ate breakfast and greeted the operator of the fishing camp like they were brothers.

VOLUNTEER

He always volunteered to captain our fishing craft, talked levingly to his Fishin' Mere 60 as he started it and ran us out to the cover that we liked.

Ho always volunteered to captain our fishing craft, talked lovingly to his Fishin' More 60 as he shorted it and ran us out to the cover that we liked to fish for crapple and bass, or gentled it down to a throaty hum for trolling alongoide the tam for walloves. dam for walloyes.

Norm and I grew up together, from the time we were entenfrom the time we were entering builleads from a creek called Long Branch till we were taking sailfish from a larger creek called Long Branch till we were biting well on minnows he would the on a surface plug and practice causing, shooting the practice causing, shooting the first into little covers and points all around our boat instead of the serious business that many people make out. It is all around our boat instead of the serious business that many people make out. It is all around our boat instead of continuing catching fish as I did, or tried to do until he called me into joining him in a practice session.

The absolutely refused to carry home more fish than he and his family could eat at many fish and he didn't prefer eating thom after they were frezen, anyway.

The never kept the little fellem that always seem to grab a hook when you don't want them. He would release them with a grin and tell them to "go home and grow up."

Many's the time I've seen him lose a seed fish when he should. JUST PRACTICE ing builleads from a creek called Long Branch till we were taking saiffish from a larger creek called the Gulf Stream.

OUTDOOR When you're after deer you see time: 15 much to be tellered from naplenty of rabbits; when you are employing this old trick, you can gunning for bear you see moose; learn exactly what the temperaand when you're trying to call ture is just by listening to the in a coyote area fills up with crickets. Count the number of cats. This is the hunter's dilem- chirps in a 15-second period. The Federal Maritime Board operates the National Defense Reserve Fleets, available in case of emergency, and provides maritime training for cadets at the U.S. Merchant Marine Academy. Specialized schools also are conducted in several major cities.

The steamship companies themselves, maintain some 300 offices abroad which not only handle their vessels, but offer very valuable trade development ser-

The worth of all this can easily be evaluated. Early figures indicate that this year's U. S. exports will total \$20 billion and imports \$13 billion. And that isn't the end of the story by any means. Competition with foreign-flag lines is tough and getting tougher. To get our fair share of the trade for our own bottoms is a big job at best, U. S. maritime policy has been a potent and these questions: commerce. It has been a policy that has worked, and has made an enduring contribution to the wealth and strength of the nation.

A new 50-star flag now flies over the capitols of 50 states—symbol of a new America that's bigger and stronger than ever before. And there's a better-than-over U.S. Savings Bond, too, to help keep our new America strong.

U.S. Savings Bonds are now better in two ways:

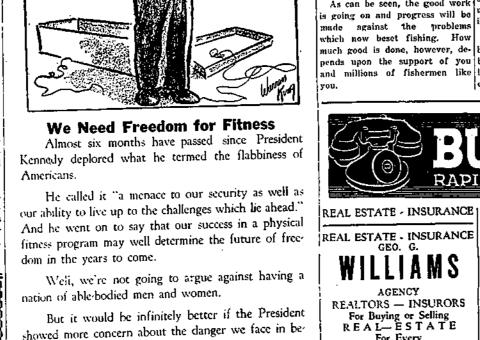

There is advantages of U.S. Savings Bonds of the Payroll Savings Plan. You invest without risk under a U.S. Government guarantee. Your money can't be lost or stolen. You can get your money, with interest, anytime you wan it. You save more than money—you're helping your Government pay for peace. 1. They mature 14 months faster than before. In E Bonds \$18.75 now becomes \$25 in just 7 years, 9 months. 2. They continue to earn interest after maturity. If you hold your bonds for 17 years, 9 months, you got \$1.98 back for \$1 you put in. You save more than money with U.S. Savings Bonds Buy them where you work or bank

Peace Power

Of course you want your children to grow up in a peaceful world. But peace costs money. Money for strength to help keep the peace. Money for science and education to help make peace lasting. Money saved by individuals. Your Savings Bonds, as a direct investment in

oung women must be en-couraged to become medi-cal research scientists. They are needed to make up the loss of men researchers who more and more are turning to electronics and other technical fields unrelated to the nation's health.
This is the view of Dr. Virginta Tennyson, a medical scientist herself, who rees the da near when there will be a acute and dangerous shortag of science laboratory talent un less burdends of siele nous is as a career. Dr. Tennyson is an anate

Dr. Tennyson is an anatomist and electronmicroscopist at Columbia University College of Physicians and Surgeons, New York City. Under a National Foundation-March of Dimes grant, she is working today to determine what causes excess fluid in the brain of infants, one of the major birth defects (hydrocephalus) with which thousands of babies are born every year in the United States.

This dread disease leads to gross enlargement of the head, wasting away of the brain, loss of mental powers—often death.

Dr. Tennyson has suggested that there is an advantage in having women in some laboratory studies.

"I think it fair to say that in some fields of scientile inquiry, women are better equipped by nature than are men. For instance, few will argue that women are note. Industrie. In the laborator, they are more inclined to respect a hunch, which is just amother word for disciplined ingination and deduction. We women hunch because we need etermined to get a realistic answer.

"Then I also think," she said, "hat women workers in science are inchined to be more pattent than men researchers. Perhaps it's debatable, but I seem to find, too, that women are novel for disciplined in another word for disciplined in the mental powers and tedium."

Dr. Tennyson mentioned that The National Foundation offers of the find too, that women are novel for the power of the disciplined in another word for disciplined in the procession of the first procession of the first procession. No Meat In Moscow

"No Meat in Moscow." That was a title of a recent editorial in the Muncie, Indiana, Star-and it has so significant a bearing on developments in this country that Congressman Halleck read it into the Congresgional Record.

The editorial began by pointing out that the proposed new farm law would make it posisble to put hog's or cattle, and perhaps other livestock, under government marketing orders-and if that should happen, free agriculture would be just about through in this country. Then the Star said: "An acute meat shortage has hit Moscow . . . The Government in Russia, operating in accordance with the Communist theory of national planning, sets the amount of meat which Soviet citizens need to consume and which Red farmers are to produce. An AP correspondent who toured the staterun butcher shops in Moscow failed to find a single scrap of meat, not even sausages. Canned meat from Bulgaria and dried fish were available.

"Meat could be bought in the central market the peasants bring produce grown on their private plots of land But the peasants set their own prices in that market, and chunks of beel including the bone were being sold for 4.75 rubles per kilogram, or more than \$2 per pound. The peasants were selling eggs for 16 cents each.

Residents Say

93 Per Cent of biggest problems and the areas most in need of improvement. Roads, stores, parking facilities, (Continued From Page One) | snow removal and bus service a low of 44 per cent in Gary, Ind. were also high on the list.

The 79 per cent of Hawthorne residents who felt there is a strong sense of loyalty and pride in their borough also ranks high compared with the 14-town national survey.

Take Your Choice-Security or Opportunity

Can a new business succeed in the USA today? Is the risk worth it? One of the best answers we've seen to these questions is the following editorial by the Warner & Swasey Company, manufacturers of heavy industrial products:

"With all the emphasis in this nation on personal security, it is encouraging to know there are still young Americans more interested in Opportunity. Last year almost a quarter of a million new (most very small) corporations were started in this country, plus countless more partnerships and individual one-man concerns. "There is proof some true Americans are still alive,

with courage and determination and willingness to work. And willingness to take a chance, for they know nobody guarantees them success--they will have to earn "Out of those thousands some will fail--and

many of these will try again. Some will succeed—and

provide the taxes, the jobs, the better products of the "When this 'new-companies-started' index stops, America stops. And it will stop unless tax laws let these young companies keep enough profit (when they make it) to grow and build for the future, and unless Government changes its attitude from punishing and

suspicion of success to one of encouraging it." The 50 per cent of Hawthorne Looking to the future, only 40 cent buy all or most of their est ex-drivers at 98), Chase Dean, 5.3 per cent are retired, 59 per Wright (one of the nation's old-

Meanwhile, Back Home

Have you asked your neighbor lately how I thinks the Administration's doing? The chances are that he-like millions of other loyal Americans—will talk about what the government

is doing about the foreign situation. Well, we don't like the frigid war any more than the next fellow. But the sad fact is that while we're moaning about Mascow, the administration is hammering together a 10-program domestic welfare-state plan that would annihilate our basic American liberties. Each of these programs includes a plan to in-

crease centralism-the central government control of

Here's what the 10 programs would do: 1. Control factory location. 2. Control wages in local intrastate business. 3. Control local school systems. 4. Control production and distribution of power. 5. Control city development. 6. Control the employment market. 7. Control hospitals . . and ultimately medicine. 8. Control the farmers, 9. Control the market place, 10. Control of capital accumulation

through tax tinkering. Or, to put it in two words:

the vital elements of our economy.

We want your business—and we'll take care of it. CONTACT US TODAY!

steel product, such as razor dramatized the virtues of stain

THURSDAY, AUG. 17, 1961

Our country, generally regarded as the most technologically advanced in the world, is currently producing an estimated \$6 billion worth of iron rust a year! And this in a day when steel is readily available from many mills that will last, insofar as scientists are able to judge, forever!

This colossal figure includes, of course, every sort of iron and industrial equipment whose at from \$400 to \$500 million at year. And this goes on despite the continues of stain-blades, "tin" cans and Christmas less steel as nothing ever had become!

Since that time, most crack trains of various railroads have been fabricated of stainless, but the great bulk of commuter and transit rolling stock continues to be built of rustable steel. Phillips witnessing another startling example of stainless-on-wheels in 270 shining new city transit cars that recently entered service on

Things One Remembers

There has been much criticism of the prices charged for prescription drugs. The writer of this piece, as a layman, hasn't the slightest personal knowledge as to whether these criticisms are justified or not.

He was struck with a sudden infection, diagnosed as an exceedingly severe case of erysipelas complicated by other disorders of a serious nature. There was severe pain, along with temperatures running to 104 degrees.

The treatment consisted primarily of heavy doses of antibiotics. Within three days infection and temperature were gone, and convalescence began. As a matter of curiosity he asked the doctor, who is also an old friend, what would have happened in the

same circumstances 50 years ago. The doctor answered: "You don't have to go back that far. Even when I started to practice, within the last 20-odd years, you'd probably have been dead in 24 hours. We didn't have

The modern antibiotics used, bought at retail in a prescription pharmacy, cost something like \$6.00.

ributed to a short circuit, forced closing down of the Suffern Plating Company.

A fire, believed to have been started by a shorted motor caused extensive damage last Thursday afternoon to a Goffle Road plating plant. Estimated damage done to the plant of the building at 199 Goffle Road, leased by the Suffern Plating Co., was estimated at more than \$15,000 by fire department officials,

Fire Chief Louis Bay said the fire apparently had a good start because of a shut-off, sprinkler system. All four volunteer fire companies responded to the alarm which was sounded at 1:45 p.m.

The blaze started in the firm's drying and chipping rooms occupied by the company.

The firemen, in upito of the lazards of dease smoke caused by burning becauer and other chomicals were able to bring the blaze under control within 30 minuten and had it out within one and a half hours.

minutes and had it out within today the flight of business and one and a half hours. Damage to the plant machinery called for a tax climate which

Columnist Dick Wolff is "out fishin" today. In his absence, guest produmnist Ed Moore, Fishing Editor of The New York Journal American, reviews Wolff's new book "Fishing Tackle And Techniques", published by B. P. Dutton & Co.

American, review Wolff's new book "Fishing Tackis And Techniques", published by E. P. Dutton & Co.

When we learned more than a year ago that Dick Wolff was writing a book on fishing tackle we were most anxious to see the completed work. Dick, whom we have had the privilege of knowing for a good many years, is a thorough man who has always come up with answers that not only are replies to the questions, but which are in a form that can be understood by the questioner. His approach to fishing tackle should be, we thought, most interesting.

Well, it was. Not only is his book, "Fishing Tackle And Techniques" interesting, it's enthrailing. We've been in the "fishing editor" category for a good many years and we've never before come upon a book on fishing tackle that does the job as this one does — which is the way it should be done.

If we can put our conclusions up here we would say that this is, without any reservations, the best book on fishing tackle that has ever been printed.

Tou see, Dick Wolff thoroughly understands every single thing he has written about in this book. That's the first requisite of coming up with an authoritative work.

Then he wrote it so that you and I and every render can understand it. There's no point in writing something that can't be understood for that accomplishes nothing.

Balt casting, fly casting, spin casting, spinning, reels, rods and line are all taken up, discussed thoroughly and understandable, and the technique of its may it fully discussed with, most iniportant, the reasons for each decision. Nothing is gloased over. There's no blus for or against any type of tackle. It's all bered on plain fact.

Following each chapter (and the chapters are devoted to one subject only) is a series of questions which cover the most common queries on that phase of tackle selection and use. If these questions don't happen to include your specific query, you will find that the answer is contained in the chapter itself.

"Fishing Tackle And Techniques" by Dick Wolff is the equal of and prob

-and get paid for it

Just imagine buy- i ing a \$1,000 bundle of cash on the installment plan. 🥞 No money down. You get 33/4% in-

turity, which means your \$1,000 costs you only \$750. Sounds pretty good, doesn't it? This is what happens when you buy U.S. Savings Bonds on the Payroll Savings Plan. To start, just

tell the company where you work to set aside \$18.75 from your pay each month. In 40 months you'll have Bonds worth \$1,000 at maturity.:) The Payroll Savings Plan is more than an easy

, way to save. It makes certain that money you want to keep doesn't slip through your fingers. Why don't you start saving this sure and easy

. MORE ADVANTAGES TO THINK ABOUT

You now get 3% % Interest, at maturity. This new rate, which went into effect June 1, 1959, makes your Bond money grow faster. Series E Bonds now mature 14 months earlier—in just 7 years, 9 months. Tou can get your money, with interest, any time you want it. Bonds are a ready reserve that you can cash any time at any bank. But it pays to keep them. Your money is guaranteed by the U.S. Government.

Bonds are an absolutely riskless investment. The Government promises you that the cash value of your Bonds will not drop-it can only grow.

Your money can't be lost or stolen. The Treasury will replace your Bonds, free, if anything happens

You save more than money. You help save the peace. Every Bond you buy helps keep our nation and our nation's economy strong.

Here's how you can reach your savings goal with \ U.S. Savings Bonds in just 7 years, 9 months.

\$2,500 \$5,000 \$10,000 Each week \$5.45 \$10.85 \$21.70

the building of a new station to same place. There is little solace A VANCOUS CONTRACTOR OF THE PARTY OF THE PAR be known as Hudson Generating in that thought though, because Station, which will have an in- whatever lightning strikes is gen-One of the best ways of discouraging a would-be prowler from entering your house is with light. An unlit house, or a home with light burning continuously will arouse suspicion and is a virtual "open invitation" to burglars. This summer, householders planning their vacations will be interested in knowing that now there is a small, inexpensive timing device available that's designed to foil burglars by automatically turning lights "on" about dusk and "off" later in the evening. This timer called Time-All, is not much larger than an alarm clock and can be attached to one or more lamps. It's portable and requires no special wiring.

A new 50-star flag now files over the capitols of 50 states—symbol of a new America that's bigger and stronger than ever before. And there's a better-than-ever U.S. Savings Bond, too, to help keep our new America strong.

U.S. Savings Bonds are now better in two ways:

1. They mature 14 months faster

Other advantages of U.S. Savings Bonds

You can save automatically with the Payroli Savings Plan. You invest without risk under a U.S. Government guarantee. Your money can't be lost or stolen. You can get your money, with interest, anytime you want it. You save more than money—you're helping your Government pay for peace. 1. They mature 14 months faster than before. In E Bonds \$18.75 now becomes \$25 in just 7 years, 9 months. 2. They continue to earn interest after maturity. If you hold your bonds for 17 years, 9 months, you get \$1.98 back for \$1 you put in. You save more than money with

Former Residents Write of Smallpox Siege in Sumatra

A local business woman sitting in her second floor office at 300 Lafayette Ave., picked up her ringing phone and a voice on the other end told her that a "cablegram from Sumatra, Indonesia, is being held for you" at Western Union in Patyrson.

> It could have been a joke but it wasn't. It was the keeping of a business promise from A Paterson executive for whom Miss Loretta B. Gloor, in her capacity as head of Atteroi Business Assistance Co., had done some special and highl onfidential work. John Manzione, a resident of Paterson, has been assigned by his employers to carry out the

special mission in Indonesia. Prior to his embarking for the Southeast Asia country, Manziona called upon Miss Gloor The work completed to Man-

zione's satisfaction, he then promised Miss Gloor that when any occasion arose while he was on the job in Southeast Asia, he would cable the information and nstructions necessary for the The call came recently and

Miss Gloor smilingly recalls telling her mother, "Perhaps our neighbors in Hawthorne haven't heard of Attorol, but we are known in Sumatra, Indonesia." This week Miss Gloor recelved an air-mil letter from Mrs. Manzione. The letter was

Hitch your wag to 50 stars! BUY BETTER-THAN-EVER U.S. SAVINGS BONDS

A new 50-star flag now flies over the capitols of 50 states—symbol of a new America that's bigger and stronger than over before. And there's a better-than-ever U.S. Savings Bond, too, to help keep our new America strong.

10 ther advantages of U.S. Savings Bonds

• You can save automatically with the Payroll Savings Plan.

• You invest without risk under a U.S. Government guarantee.

• Your money can't be lest or stolen. U.S. Savings Bonds are now better in two can get your money, with interest, anytime you want it. • You save more than money—you're helping 1. They mature 14 months faster than before. In E Bonds \$18.75 now becomes \$25 in just 7 years, 9 months.

2. They continue to earn interest after maturity. If you hold your bonds for 17 years, 9 months, you get \$1.98 back for \$1 you put in.

You save more than money with U.S. Savings Bonds Buy them where you work or bank
