editorial

To run or not to run...

Although we have a school board and city council to fight this off, there are still some people who believe that there is a need for a new mayor. The mayor is the head of our town and is responsible for running the city. As such, there are some people who believe that the current mayor is not doing an effective job and that a new mayor is needed.

comment

When will the Mayor Bay Library open up?

Another issue that has been on the minds of many people is the opening of the Mayor Bay Library. The library has been under construction for several months and there have been delays in the construction process. Many people are eager to see the library open and are wondering when it will happen.

letters

Opinions are mixed

There has been a lot of debate about the opening of the Mayor Bay Library. Some people believe that the library is long overdue and that it will be a great asset to the community. Others believe that the library is not necessary and that the funds could be better spent elsewhere.

This year's school budget represents change

Now that the school board has been elected, discussions on the 1979-80 school budget can begin. The school board was elected on Nov. 7, and if the board members are serious about improving education, they will make the cuts necessary to provide the funds the schools need.

The present proposal includes a five percent tax levy and an increased budget. The board should consider cutting some programs to avoid raising taxes. The present budget proposal includes a $4 million increase, which is too much for a school system that is already overburdened.

Community leaders' panel part of Catholic Schools Week

A panel of local community leaders will be held in conjunction with Catholic Schools Week. The panelists will discuss the importance of Catholic education and the role it plays in society.

State college tuition hike will hurt higher ed

Eighty-nine percent of state revenues are being used to fund higher education. This is a burden on the state's economy.

ups and downs

Thumbs Up

The removal of the city's anti-discrimination ordinance is a step in the right direction. It will allow businesses to operate without fear of discrimination.

Thrive to present "J.B."

To judge by the interest already registered and the support the new performing arts group, Thrive, has already received, it is safe to predict that its first program in February will be quite a success. Announcements are now being made that a special, partial play of James Baldwin's 'J.B.' will be presented at 8:00 p.m. on Thursday, February 10th, at the Sondra Fisher Theatre in Westside. Free tickets will be offered to all those who make reservations at least one week in advance; regular admission will be $2.50, or $1.50 for students. The show will be directed, or, more appropriately, interpreted, by founder and president of Thrive, Darrell Byrd. Ms. Byrd has had previous experience as a director at the Urban League and the New York State Psychiatric Center. She has also directed a production of 'Jesus Christ Superstar' and has taught theater rehearsal at Fisk University. Also helping with the production will be Terri Byrd, professor of theater at Stanford University, who is the wife of Darrell Byrd. She, too, has directed a play at Fisk and she has taught theater at the University of Washington. The cast is drawn from members of Thrive, who are all experienced in the arts, but have previously lacked a chance to perform together. The program is designed to focus on the arts and its importance in society. It is hoped that the audience will see the value of arts in our lives and how it can bring us together. The program is open to all, and those who plan to attend are encouraged to make their reservations as soon as possible.
