JULY
JULY FOURTH 1930

The Fourth of July has a special significance to us as the anniversary of the Declaration of Independence of the United States of America. This day is observed by our ancestors in their early settlements of the American Continent. We are grateful for the freedom our forefathers fought and died for. This day is celebrated with pride and enthusiasm throughout the country.

A Family Budget --

Family budgets can be considered as a necessity in any business organization.

A family budget is the plan of operation in which a firm determines the amount of money to be spent on each item of expenditure. This amount is determined by the income of the firm, the cost of production, and the cost of distribution. The family budget is an important tool for controlling and regulating the financial affairs of a firm.

You have something to sell!

Let people have a glimpse of your item, a used or out-of-date magazine, an odd magazine or comic book, let them have a glimpse of it which they can baptize with.

These things are scattered all in the Press or with whom they believe some other value and price.

Someone is getting a copy of something which they have never heard of, or have never seen or heard of it before their first ad. But why not sell them something else when you sell them something else? They will be glad to know what you want and how much you want it for.

Your want Ads will be read in the Hawthorne Press
