National Affairs

There has been considerable

speculation among the political

dopsters in Washington as to what

if any effect the gasoline shortage may have on the election results in

November. There are two or three

theories about this any one of which may be correct. In ordinary

times when there is a shortage of

so essential a product as gasoline,

there is a great deal of complaint because of the inconveniences

which arise. Then if the election

is near the tendency is to vent dis-

the party in power holding it re-

spensible for the unpleasantness o

the situation.

pleasure at the ballot box against!

However, these are not ordinary

times. It is true there is a great

in the Eastern States because of

deal of grumbling and complaint

the gasoline rationing and much

fear in other sections that the ra-

A Fighting Ship Wills Funds to Navy Relief Here's a real news oddity—fighting count for the fund is made out, named executor of the testament. So ships of the United States Navy have a fund all their own and the power to dispose of it by will. Known as the ship's mess fund, it is raised by drawing up a will which propagate the ship's mess fund, it is raised by drawing up a will which propagate the crew and is ordinarily devoted to special events, such as parties and other forms of enterparts and other forms of enterparts and other forms of enterparts alignment. It is usually administered by the ship's officers acting for the same as Brooklyn, N. Y., bank, which is and coast Guard.

With commendable foresight in backing the would have upon State revenues, but have set up a workable plan to "fight fire with fire." As set forth in the "Priorities

THE PAYROLL SAVINGS PLAN is an easy nutomatic method of getting employees to turn a part of their earnings into tenks and planes and gons regularly, every pay day, through the systematic purchase of United States War Bonds. It is a sound business plan because it will give employees money after the war to revive peace time industry. Equally important, the Plan will reduce surplus buying power, derecising the danger of forfation, (Notional income for '21 is up 607; production of civiling goods is drastically curtailed.) The systematic purchase of War Bonds is important to Unite Sam, to the Worker, and to YOU.

The Plan is Simple . . . and easy to put late operation. Your employee authorizes a regular deduction from his pay envelope, which is kept in a separate group bank account. Every time his account accountaites the cost of a Bond, your bank issues the Bond and mails it directly to your employee. The authorization cards, supplied free by the Treasury Department, contain a complete record of the worker's account, making additional bookkeeping unnecessary. No red tape... the bank makes no charge for its service.

Workers Welcome the Plan . . . Wherever introduced it has received embusiastic acceptance Employers are sazious to do their share toward winning the war and realize that the Payroll Savings Plan is easier for them ... surer for the Government. The Plan has complete union support and the endorsement of such labor leaders as William L. Green, Philip Murroy, Thomas Casben.

Everything is Done for You ... The Treasury Department will send a member of the local Payroll Saviogs Committee to explain all details to you or your bookkeeper. Experienced speakers will come to your plant or office, at any given time, to explain and sett the Plan to your emistrace.

DO IT NOW! Write or Phone TREASURY DEPARTMENT WAR SAVINGS STAFF Federal Building . Newark, N. L.

HAVE YOU SPARE FUSES?

It is smart to keep an extra supply of fuses within easy reach of the fuse box. If you don't, you may have a private blackout with no immediate remedy. Know how to replace burned out fuses and never use a makeshift substitute. Ask your electrician about the type and size needed in your home and consult him if fuses blow out frequently.
