Tribute Paid To Former Fire Chief

Former Fire Chief Charles Buono, who served the Hawthorne Fire Department in this capacity for 15 years, was paid a final tribute by former Commissioner Joseph M. Harrison and his fellow firemen at the annual dinner of the department at Bladberg's Pavilion last night.

Mr. Harrison, under whose leadership the department has developed into one of the finest in the State, presented Mr. Buono with his ex-chief's badge.

The "Chief" as he will probably always be known to his many friends, reviewed some of the highlights of the past decade of the department's history. He recalled that it was during Commissioner Harrison's term of office that the department organized "The diners have done a great deal for the department," he said, "bringing about a feeling of comradeship among the firemen that was never before possible. They have enabled the firemen to get together and learn to know each other, and have fostered a spirit of mutual co-operation that means more to the borough men, than any of the fine pieces of apparatus which have been obtained in the last few years."

You can make sure that your estate will be a real benefit to your heirs. The Citizens Trust Co., 140 Market street, Paterson, will help you in this.

NATIONAL AFFAIRS

CLOSED SHOP CHALLENGED

In support of constitutional rights, Attorney General Watson of the State of Florida has filed suit against five corporations operating under closed shop agreements, to test the legality of the closed shop contract, in a nation founded upon principles of justice and equality. In commenting on the suit, Mr. Watson says: "In both cases we have proven that to employ a worker the employer must first send him to the business agent of the union. This business agent classifies the employee to the union which he is required to join. An initiation fee is fixed by the union—these fees in the two cases in question ranging all the way from \$10 to \$125 per initiation. It was proven also that the business agent could and did in each case arbitrarily refuse to certify the

in several instances where contractors have arisen among union members in the same employment, the union would take the side of one against the other and terminate the membership of the one so acted against, and thereby being about his immediate discharge from his closed shop employment."

These labor excesses have been prohibited with the approval and encouragement of the Federal government. That is one of the reasons why the coal mines have been socialized temporarily, why legitimate unions may suffer lasting injury, and why, when our men come back from war, they may find that before they can get a job they must pay tribute to a labor dictatorship just as deadly to freedom as the European military dictatorship.

It's A People's War

We are paying more in taxes than ever before... and likely will pay more. But we cannot rely on taxes to finance the war. It would not be fair to have a tax on the average single family income when many families have more than one income. We could borrow all the money from the banks, but for both economic and social reasons this is undesirable. The government would then assume its greatest debt against inflation. This is a People's War and the people should finance it. The people WANT to finance it. The people WANT to finance it. The people WANT to finance it. They give their lives... You lend your money.
