Roosevelt School Faculty Attends P.T.A. Luncheon

Members of the faculty of Roosevelt School, and other guests, recently attended a P.T.A. luncheon featuring "Eighty Minutes Around the World."

Decorations featured flags and items from foreign countries and many exotic dishes were sampled. Waitresses wore various international costumes.

They included Mrs. Ruth Allen, Mrs. Louise Sparano, Mrs. Alex Butts, Mrs. Lucille Weiss, Mrs. Ethel Jones and Mrs. Eva Dykstra.

Following the luncheon, Edward Pabian, principal, installed the new officers for the coming year. Each officer was presented with a corsage.

They are: Mrs. Jack Bryson, president; Mrs. David Blasi, vice president; Mrs. Raymond Korb, treasurer and Mrs. Nicholas Pysstra, secretary.

Retiring president, Mrs. Charles Arnold, received a gold chain as a token of her devotion and fine work during her tenure of office.

HHS Varsity Hears Talk Given By 'Mets' Ambassador

"Keep yourself mentally, physically and temperamentally fit," Hal Goodenough, "good will" ambassador for the New York Mets baseball team, told the varsity baseball team of Hawthorne High School Tuesday night at the Co-lumbus Club.

Sixteen members of the team plus mothers and fathers were among the more than a hundred persons attending the annual dinner.

Goodenough, who has been one year with the New York Mets National League baseball club, and has spent eight years with the Milwaukee Braves as a professional director, spent a considerable amount of his time, talking to the players.

He told the boys that "baseball and life are each a game of inches, that there are fewer than 100 major leagues but they represent all races and creeds, and they are 'ideal citizens'."

He suggested to parents that they encourage their kids to "walk more and ride less" if they would be physically fit.

Mayor Bay congratulated the mothers and fathers of the young athletes saying "sports are rising in popularity and it is good to have our young men and women in the field."

Non-Farm Wage and Salary Employment Still Expanding

TRENTON — Nonfarm wage and salary employment in New Jersey continued to expand better than seasonally in April, reaching a record 2.2 million, according to estimates prepared by the U.S. Department of Labor and industry on the basis of its monthly employer survey. The 2.2 million estimate excludes farm, domestic, self-employed, and unpaid family workers. Wage and salary jobholding has expanded at 65,000 since April, 1961, with the rate of advance accelerating over the past six months, especially in manufacturing, if allowance is made for normal seasonal variations.

Employment increased by 37,200 between March and April, 200 between March and April, 1965.

due largely to seasonal gains of 12,500 in wholesale and retail trade, 9,700 in services, and 1,000 in construction. Factory employment has risen by 20,000 since March, but is still below the level of 1961. The rate of advance in manufacturing has slowed since last year, but is still above the rate of advance in other nonfarm sectors.

Seasonal layoffs by women's and men's apparel makers, and by the furniture and home furnishings industries, with about half of the increase accounted for by the furniture and home furnishings industries, and the other half by the apparel makers.

HEALTH, EDUCATION AND WELFARE

Pasadena and Bergen County residents 65 or over who have not yet applied for social security

benefits were advised today to file a claim now even if they are not planning to retire right away. The latest figures show that nearly 15 million Americans who are 65 or over. Of that total, more than 14 million have already established their entitlement to social security monthly benefits, and 1.1 million are insured for benefits.

But have not yet filed their claims. The latter figure includes the wives of insured workers.

Noting that President Johnson has designated May as National Senior Citizens Month, Gensler extended a special invitation for all Pasadenians to County over 65 residents who have not applied, to visit the social security office, which is located at 52 Church Street, Paterson, New Jersey. An application for benefits. The phone number is 523-6886.

Beat down heating costs two ways

First, a revolutionary new invention for oil burners, the Gulf Solar Heat ECONOJET, beats down costs by giving you more heat from less oil.
Secondly, Gulf Solar Heat drives down heating costs because it's scrubbed clean with hydrogen to burn hotter—cleaner and more completely. It goes further, yet costs no more. Get more out of your heating dollars by calling us today!

82½ Million Invested In New Jersey By Pincocchio Associates, Inc.

Fred W. Holm, president and chairman of the board of Pincocchio Associates, Inc., Woodbridge, New Jersey, announced that his company, launching a chain of franchised drive-in restaurants, has decided to invest a minimum of \$2½ million in New Jersey in 1965. Approximately \$1½ million is being allocated for land and construction of the 20 Pincocchio restaurants pilot project, and \$1 million is budgeted for advertising and promotion throughout the state with newspapers.

Mr. Holm said it was decided to concentrate in New Jersey after a 16-month study of the 48 other states. He pointed out that while it is the 48th state in size, it is the 8th in population, that it has more miles of road per square mile than any other state, and there are some 2½ million passenger cars registered in New Jersey, and its beautiful beaches, 27 state parks and other attractions draw millions of people from both in and out of the state. His company was also impressed by the fact that it is the 7th state in the nation in manufacturing, that it is a highly progressive growing community, and its tax base is equitable.

Eleven sites have already been designated in New Jersey, and others are being surveyed throughout the state. The Pincocchio franchise offers an excellent opportunity for those interested in owning their own business. The unique Pincocchio building is 32 feet high to the top of the Pincocchio hood which is 4½ feet in diameter on a 30 foot long body. The beloved fairy tale figure is also the inspiration for the featured sandwich known as The Pincocchio—made on organ-pump-leaved bread that is nine inches long.

about to graduate with honors, received from the hands of Vice President Humphrey, on May 20, 1965, the Scholastic Achievement Award of the American Association of Colleges and Universities. This heart-warming Springtime ceremony provides us—and millions of other Americans, we hope—with an annual lesson in humility and a reminder of the thanks that are due a merciful God for the possession of our faculties. And better to write today than blame yourself tomorrow.

STRENGTH OF DAYS
Give thanks to Him and His name.
—(Psalm 100:47)
Today let's take time to be thankful for the good in our lives, for the friendships, expressed by our friends, co-workers, and our family. We are thankful for the opportunities to express God's love and for the many blessings to bring continued good into our lives, so we can live in peace and harmony with our fellow man.
The heaven uses its fall as a ladder when towing branches on logs, and also to strike the water to warn of danger.

BADLY NEEDED BALANCE

Representative Govt. ...

Business Voice Needed

The outstanding political fact today is that organized labor has developed the most effective political organization in the country and "one-factor" government is a very real threat.

The AFL-CIO can now count as its friends and supporters well over half of the members of the House and Senate and is in a position to dominate the making of the laws and the course of national affairs.

To help restore representative government, American business has created BIPAC—the Business-Industry Political Action Committee—to give the same kind of campaign support to congressional friends of business that COPE, the political arm of the AFL-CIO gives to labor's friends.

BIPAC is a nonpartisan organization of individual citizens devoted to the principles of government embodied in the Constitution, to maintaining fiscal responsibility, and to preserving free enterprise. Its headquarters are in New York.

Businessmen's Political Committees are being established in each state, through which BIPAC will work in cooperation with national, state and local business associations, to support candidates for Congress, regardless of party affiliation. It also will conduct a continuing program of political education to win understanding and support for its principles among the voters.

By organizing the great political potential of the business community, BIPAC can help correct the great imbalance which now exists in Congress and assure the continuation of truly representative government in this country.

JR. WOMAN'S CLUB SPOTLIGHTS TWO AS "TEENS OF MONTH"

This month the Junior Woman's Club of Hawthorne spotlights Barbara De Block and Robert Spiecker as "Teens of the Month."

Barbara De Block, daughter of Mr. and Mrs. Robert De Block of 1022 Lafayette Avenue, Hawthorne, has been an active member of the club for four years. Her particular interest is in nursing, being an active member of the Future Nurses' Club for four years, holding office for two years, one as secretary, and one as treasurer.

Robert Spiecker, son of Mr. and Mrs. William Spiecker of 18 Park Slope Terrace, Hawthorne, has received a doctor of medicine degree from Hahnemann Medical College, Philadelphia, Pa.

RAYMOND RHODES TAKES ISSUE WITH PROPOSED SEWER SURVEY IN THE EMELINE DRIVE AREA

Raymond L. Rhodes today took issue with what he described as "deliberate distortions" about a proposed sewer survey in the Emeline Drive area of the Borough.

A petition signed by 58 homeowners asking the Borough to make a survey for sanitary sewers in their area was presented to the Borough Commissioners at their meeting Friday night.

Rhodes contended that allegations by William Van Tuinen and others to the effect that the survey was being conducted to protect the New York City port area in event of a nuclear attack were "completely unfounded."

ECONOMIC HIGHLIGHTS

Two topics are so widely discussed as education, in all its many ramifications. Just about everyone agrees that, in this age of automation and technology and the sciences, it is more vital to the national future—no way nothing of the future of individuals—than it ever was before. At the same time, there is endless controversy over the quality of education, particularly as it involves economics and the role of the government in our national life.

That fact gives particular interest to a survey among American high school juniors and college seniors conducted by Northwestern University, Purdue University, the University of Wisconsin, and U. S. News & World Report. Its purpose was to determine political trends among young Americans. The results were reported in a recent issue of Action magazine, which is a publication of the U. S. Junior Chamber of Commerce.

To put it mildly, the opinions expressed were startling and unsettling. They leave a big question mark as to the character of our educational methods. Among students surveyed:

- 71 per cent would deny an accused person the right to confront his accuser.
- 40 per cent believe certain groups should be denied the right to peaceful assembly.
- 41 per cent believe freedom of the press should be cancelled.
- 34 per cent favor denying freedom to certain persons.
- 26 per cent would allow search and seizure without consent.
- 66 per cent voted for close government regulations on all business.
- 53 per cent believe in government ownership of banks, railroads and steel companies.
- 62 per cent said government has responsibility to provide jobs.
- 62 per cent thought a worker should not produce all he can.
- 61 per cent reflected the profit incentive as necessary to the survival of free enterprise.
- 84 per cent denied that patriotism is vital and plays an important role in our lives.
- These concepts, obviously, would, if adopted, totally revolutionize the American economic and political systems. Some of the search and seizure and the rights of the accused to face the accuser—would be mental protection laid down in the Bill of Rights. A great many people undoubtedly agree with a viewpoint expressed by Robert R. Carey, president of Associated Oregon Industries, when he said: "A number of writers, analyzing these figures, believe they provide additional proof that the doom-sayers are not far wrong in their predictions of a welfare state in this country. But more importantly the results also reveal the quality of course in history, economics and American government offered in most high schools and colleges these days. Then, too, the results offer an eloquent rebuttal to the 'deathly' rebuff to the individual that the minimum wage for working should be lowered. If a majority of these under 21 do not know what American government is all about, as the results of this survey would indicate, it is doubtful that they could intelligently exercise a right to vote. Worse than anything, these shocking figures tell us of the massive job to be done in the education of our youngsters—not only in the schools, but also through the business community."

FOR MORE PAINFUL TAXES
This year a great many income tax payers were stunned and angered by the fact that they owed more than they had expected when April 15 rolled around. The reason lies in the recent tax cut. As passed by Congress, the cut was spread over a two-year period. But the entire reduction in withholding was made at once. Now it is planned to readjust the withholding percentages, in order to make the income tax less painful. That may seem like a fine idea. But the Birmingham Alabama Post Herald views the matter very differently. It thinks the tax should be made more painful, rather than less so, here is its reasoning:

"When taxes are withheld at the source, the money never really seems to belong to the individual involved. It is just a book-keeping transaction, in which funds pass from the employer directly to the Government.

"Taxes paid in cash, however, represent real money out of pocket. They stand for trips not taken, clothes not bought, appliances purchased postponed. And they tend to make a man look skeptically at what the Government is doing with his tax dollars."

"We have nothing against the

withholding principle as such. But if Uncle Sam's tax bite doesn't hurt a little bit, you'll never realize it is YOUR money he is spending and you should."

It looks as if the Post Herald really has something there!

AAA Says Check Voltage Regulator Before Trip

Motorists preparing for a long trip should, among other things, have the voltage regulator carefully checked, according to Ted Schneider, road service manager of the North Jersey Automobile Club of the AAA.

"Failure of the voltage regulator," the AAA official said, "can lead to overcharging which, in turn, can bring on positive grid corrosion. A survey by the Association of Battery Manufacturers has shown this to be a leading cause of battery failure."

"A contributing factor is that batteries have more, but thinner, plates than before. This improves low-temperature cranking, but thinner plates corrode faster from over charging—particularly when temperatures are above 80 degrees."

The very drugs intended to stimulate drivers to greater alertness, can be the cause of accidents as their effects wear off leaving the same driver in an advanced state of drowsiness, according to the Safety Director of the Motor Club of America.

KNOW YOUR GOVERNMENT

HIGH COST OF DEBT
New Jersey at the end of June will adjust upward to the new higher budget adopted by the Legislature several weeks ago for the new fiscal year beginning July 1.

Congress focuses another spotlight on the rising cost of government with its proposal to raise the national debt ceiling to \$285 billion in 1965. But as the actual debt climbed through that limitation, Congress adopted a temporary ceiling.

Among such reminders are local property tax bills. These usually reach the homeowner and other taxpayers in June to help them remember the new tax rates adopted earlier in the year to help pay for costs of schools, municipal and county governments. In the actual debt which now stands at approximately \$117 billion.

NOTICE OF APPLICATION
Take notice that the Board of Commissioners of the Borough of Hawthorne, New Jersey, has received an application for a license to operate a public utility within the Borough of Hawthorne, New Jersey, filed by the Hawthorne Electric Company, Inc., a corporation organized under the laws of the State of New Jersey, and that the Board of Commissioners of the Borough of Hawthorne, New Jersey, has appointed a hearing to be held on the 15th day of June, 1965, at 10:00 o'clock A.M. in the Board of Commissioners' Office, Borough of Hawthorne, New Jersey, for the purpose of hearing the application and of receiving testimony and evidence in support of the application. Any person desiring to appear at the hearing and to be heard in support of or in opposition to the application, or to file any testimony or evidence in support of or in opposition to the application, should do so on or before the 10th day of June, 1965, at 10:00 o'clock A.M. in the Board of Commissioners' Office, Borough of Hawthorne, New Jersey. The Board of Commissioners of the Borough of Hawthorne, New Jersey, reserves the right to reject any application which it deems to be incomplete or to require further information. The Board of Commissioners of the Borough of Hawthorne, New Jersey, also reserves the right to reject any application which it deems to be in violation of the public utility laws of the State of New Jersey. Strolling Along With Pat Ferro

An old friend is paying a brief thought to Leon Janney had some. With the playhouse on the Mall, "The Man Who Came to Dinner" arrived with CBS news-caster Kenneth Bannister as the character. While the playhouse has a lot of the same old, old original it does bring a great deal of nostalgia to the local theater and a flood of laughs to a new generation of players. A very friendly opening night audience weathered a thunderstorm and power failure. The fifty minutes of electricity delayed the show in the second act, but every body stayed. The cast improved a long season. Producer Bob Ladouceur blamed the lack of light on Con Edison. Jack Sterling charged that NBC blacked out the show last night. Lee Jordan

WASHINGTON NEWS

THAT'S MY SHOPPING CART! — Who wants more government controls placed on food and grocery manufacturers? Not the American consumer. This was clearly shown in a recent nationwide study to find out what consumers really think about grocery manufacturers, their products and how these products are packaged. The manufacturers have to know what the consumer wants. Their livelihood and the wages and salaries of their employees depend upon it. The study was made by Optima Research Corporation, Princeton, New Jersey, for Grocery Manufacturers of America, Inc.

instances even a higher ratio of consumers, the study showed, are satisfied with the quality of food products, the ease with which they can be prepared and used in the home, their cleanliness and safety and their nutritional value. Similarly most consumers are satisfied with present industry packaging, including their convenience, range of sizes, information and pictures on labels, serving sizes and level of fill. The few consumers who feel changes are called for in these areas (1 after-dinner dollar compared with 50 cents in 1947-49. This is the smallest share of income spent for food anywhere in the world at any time in history.

All-in-all when the consumer speaks, he seems to be giving those who favor more government control of the food industry, that typical warning from the aisles of the supermarket: "Take off, that's my shopping cart!"

WE PAY AS THEY GO! — Our public servants have spent nearly \$200 billion of your money on transportation facilities since WWII. They have provided us with a magnificent network of highways, always crowded with cars, trucks, buses, and planes. At the same time they have provided extended and improved rights-of-way to the trucks, airlines and

large lines. As one way explains it: "There are so many paid so much to enrich so few!"

The same thought seems to have troubled President Johnson — just as it bothered the five Chief Executives who immediately preceded him, all of whom sought ways of collecting appropriately from these commercial users of public facilities.

In his special message on tax reduction, the President urged the adoption of "new and additional transportation user charges" — designed to move toward the elimination of inequities among the several modes of transportation (and to recover a larger part of the outlays by the Federal Government for services and facilities which mainly benefit special groups.)

...Editorial...

Controls Bring More Controls

Numbers of people who haven't thought the matter through undoubtedly are attracted by proposed "Truth in Packaging" legislation. The name is appealing. Everyone wants the information provided on the vast variety of packaged goods to be truthful. So, it can be rationalized, it's probably a good idea to give government bureau more authority to regulate packages.

The trouble with this kind of thinking is found in a statement by Senator Dirksen: "Controls inevitably bring more controls. . . if you control the quantity then you must control the composition of the content, forcing Government controls over quality of product, price of product, wages to produce the product, production and distribution of the product and finally the consumer's choice, all of which leads to killing the initiative, the innovation power and the motivating force of our people which made this country the greatest in history."

That is quite an indictment, but no one familiar with the course a power-hungry bureaucracy always

takes will deny it. Beyond that, laws now on the books, such as the Food, Drug and Cosmetic Act, provide severe penalties for misleading labeling and other devices for deceiving the consumer. Properly enforced, they can do whatever may be required—without imposing destructive and needless controls that would inflate costs and reduce competition.

Board of Education To Survey

(Continued from Page One)
The board will not make such a survey but concentrate on elementary needs. The board is satisfied with the 8-4 system," Neuman added.

In other floor discussion Donald O'Neill asked whether the board would implement its action against surpluses and frictions in high school.

Neuman said, "The board has constantly taken a stand against them but the bulk of the responsibility lies with the parents." He continued, "The parents are well advised of the board's feelings—it will always be against frictions and surpluses in high school."

Stephen W. Mosher, school superintendent, reported receipt of a letter from the Director of Secondary Education, Trenton, giving the state's approval of the organization of staggered sessions as planned for the high school.

Mosher's recommendation that Robert Matello be appointed acting principal of the Franklin School was approved. Salary will be \$10 a month above the teaching salary.

Other approved appointments: Miss Lorraine Catania, \$4,125 high school; Mrs. Eldon Elizer, \$6,000 (art) high school; Miss Susan Tomala, \$5,000, special class; Randolph Wall, \$7,050 high school graduate; David Hagan, \$5,000 elementary.

Miss Argentiella M. Bush, who has been a teacher in the Hawthorne school system for more than fifty years, was retired by action of the board.

Miss Bush, in keeping with the policy of providing retirement for school personnel who completed the final teaching assignment June 30.

HEALTH, EDUCATION AND WELFARE

The people at your social security office have an expression which may be a time saver for you—"Inquire before you re-inquire." said Andrew J. Gresser, social security district manager in Paterson.

If you are planning to retire soon, your plans should include a trip to your social security office, located at 53 Church Street, Paterson, N. J. The telephone number is 523-5800.

By inquiring ahead of time you can get important information

about what benefits may be payable to you and your family. Gresser continued. In addition, they will be told what documents, proofs, and other information you will need to have when you do apply for your social security payments. Having these with you when you file your application will help speed up the processing of your claim and help you get your first check on time.

Many people wait until after they've actually retired before they get in touch with their social security offices. There's nothing wrong with this. But there are quite a few things that might cause a delay in processing your claim for benefits.

By inquiring before retiring you will help yourself and the social security office in the processing of your application. And your first check will arrive when you need it most, emphasized Gresser.

LEGAL NOTICE
In the County of Essex, State of New Jersey, I, the undersigned, Clerk of the Superior Court, do hereby certify that the following is a true and correct copy of the will of the late William L. Whitmore, deceased, as the same appears from the records of said court.

Witness my hand and seal of office this 17th day of June, 1964.

CLERK OF THE SUPERIOR COURT

THURSDAY, JUNE 17, 1964
In the Superior Court of the State of New Jersey, in and for the County of Essex, at Newark, New Jersey.

On this 17th day of June, 1964, the court, in open session, having been duly convened, and the court being present, the following case was called on for trial:

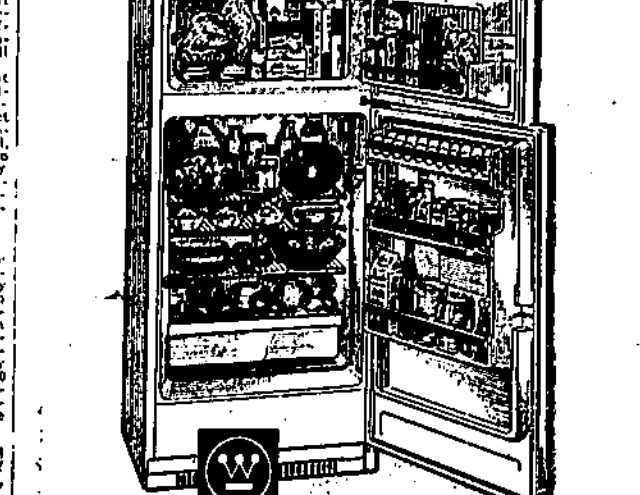

THE STATE OF NEW JERSEY, Plaintiff, vs. FRANK PISCARELLI, Defendant.

Present: Hon. J. Edgar Hoover, Judge.

The case was called on for trial at 10:00 a.m. and the court, after hearing the testimony of the witnesses, rendered its verdict in favor of the State of New Jersey.

The jury returned its verdict at 11:00 a.m.

The court then adjourned until the next day.

Cop Assault Case Held Over

(Continued from Page One)
It is in the shoulder. Patrolman Short then arrested him, placing him in a maximum of 90 per cent handcuffs on him.

Frank Piscarelli, Lynchburg attorney, defended Kelly and Mrs. Rodgers. Anthony Amabile, assistant county prosecutor, represented the state in the Kelly case. Prosecutor Alexander Paoli was absent on business.

Borough Summer Rec. Program

(Continued from Page One)
The first scheduled trip of the summer recreation program scheduled for Thursday, July 23, to Shesha Stadium. Parent permission slips will be made available the first day of recreation, Monday, June 23. Children between the ages of 12 and 15 will be permitted to attend.

Buses will leave the Administration Building at 11 o'clock. There is no charge for the bus transportation or admission to the park.

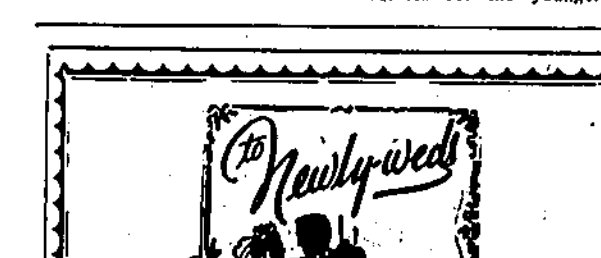

A limited number are permitted to attend, approximately 200. Permission slips will be made available on a first come, first serve basis.

The commissioners of the Board of Recreation have formulated a very interesting and exciting program for the entire summer. It is hoped all parents will encourage their children to

Recent Graduates Sought for Careers

(Continued from Page One)
It is June and time to think about careers for many of our university faculty without fear of insecurity. Do you want to be a high school and college librarian? Have you considered librarianship?

The second oldest profession in the most uncrowded field. Some 20,000 openings exist. You can work in laboratories, public and TV stations, advertising agencies, colleges, universities, children's zones, public library circulation, reference or cataloging departments or for collectors of wealth or for the variety of library positions for almost all corners of this world of our need librarians. There is no field that does not have its librarians.

Do you like books? That is quite enough. The library profession needs only persons who like to read and who value the printed word. If you also like people look room. Do you want to be a librarian? If you like things, you might like reference or child librarianship. If you like things, you might like reference or child librarianship. If you like things, you might like reference or child librarianship.

A Man In Love And Point System

(Continued from Page One)
Hawthorne has again won a done on it, but without the knowledge of Mrs. Krenkel and MacDonald's workmen in the kitchen. Wood garage had, removed the slipper plates.

Judge Cahn said he would see what he could do with Trenton about the transfer of violation points, pointing out to MacDonald that somebody had to receive them.

MacDonald paid the \$15 fine.

Mr. and Mrs. Bates Monored on 45th

(Continued from Page One)
Hawthorne, Mr. and Mrs. Arthur Dorhout of Bricktown; Mrs. Carol Lopez of Bricktown; Mrs. Vincent Lopez of Hawthorne; and Mr. and Mrs. Elmer Foray of Wayne.

Committee on arrangements were Carol Sisco, chairman; Neil Johnson and Lorraine Petrick.

Recent Graduates Sought for Careers

(Continued from Page One)
It is June and time to think about careers for many of our university faculty without fear of insecurity. Do you want to be a high school and college librarian? Have you considered librarianship?

The second oldest profession in the most uncrowded field. Some 20,000 openings exist. You can work in laboratories, public and TV stations, advertising agencies, colleges, universities, children's zones, public library circulation, reference or cataloging departments or for collectors of wealth or for the variety of library positions for almost all corners of this world of our need librarians. There is no field that does not have its librarians.

Do you like books? That is quite enough. The library profession needs only persons who like to read and who value the printed word. If you also like people look room. Do you want to be a librarian? If you like things, you might like reference or child librarianship. If you like things, you might like reference or child librarianship. If you like things, you might like reference or child librarianship.

There are careers for all in librarianship. It is the most wide open calling in America today. Preparation can be elaborate or simple as you wish—there are jobs for all. You can still learn in the job. You can go to one of the fine undergraduate programs designed for teacher-librarians or for those who want to put off graduate study or do not wish to do graduate work. You can go to a graduate school of library service after a liberal arts background or an effectively combination, or specialized training.

Car thels in the United States annually represent a loss of \$100,000,000. The basic act of library service after a liberal arts background or an effectively combination, or specialized training.

Car thels in the United States annually represent a loss of \$100,000,000. The basic act of library service after a liberal arts background or an effectively combination, or specialized training.

Passaic County's Selected Service Business Grossed \$90.1 Million

Passaic County's 2,370 service establishments had total receipts of \$90.1 million in 1964, an increase of 33 per cent over 1963, according to a report of the 1964 census of business just released by the Bureau of the Census, U. S. Department of Commerce. The last previous census of business covered operations during 1960.

The service trade in the county included: personal services to individuals; miscellaneous business services; auto repair and other auto services; and other retail services. Also included were motion picture production and distribution businesses; motion picture theaters; other amusements and recreation services; and hotels and motels.

In the county there were 1,177 personal service establishments reporting 1964 receipts of \$10.1 million. Among the other selected services included in the census were auto repair shops with receipts of \$11.0 million; motion picture theaters with receipts of \$6.5 million; other amusement and recreation services with receipts of \$1.7 million.

The selected service trade in 1964, 1963 census of business, reported 7,231 persons (exclusive of proprietors) and had a payroll for the year of \$28.5 million. The state as a whole included 5,135 establishments with receipts of \$1.727 million.

The Bureau of the Census reported, selected service, New Jersey, 1963 census of business, included 7,231 persons (exclusive of proprietors) and had a payroll for the year of \$28.5 million. The state as a whole included 5,135 establishments with receipts of \$1.727 million.

Stephen Wassels Celebrate Their 50th Anniversary

Mr. and Mrs. Stephen Wassels, of 609 Lafayette Avenue, celebrated their 50th anniversary Sunday at a surprise party given by their friends.

BANK NOTES

DID YOU KNOW?

THE NEW JERSEY BANK AND TRUST COMPANY HAS BEEN ACCEPTED AS A MEMBER OF THE BANKERS ASSOCIATION FOR FOREIGN TRADE. IT WAS ANNOUNCED TODAY BY STANLEY J. BOBROW, VICE PRESIDENT AND MANAGER OF THE BANK'S FOREIGN DEPARTMENT.

The Association was founded in 1925 to develop and promote the knowledge of international banking in the United States. Its membership consists of 160 banks throughout the United States having international facilities, with foreign banks as associate members.

New Jersey Bank established its Foreign Department in 1943 to provide complete banking services locally for firms doing business abroad.

The Association was founded in 1925 to develop and promote the knowledge of international banking in the United States. Its membership consists of 160 banks throughout the United States having international facilities, with foreign banks as associate members.

New Jersey Bank established its Foreign Department in 1943 to provide complete banking services locally for firms doing business abroad.

Children Are Welcomed at Olympic Park Pool

Three wading days of the school year have witnessed a renaissance in class trips to amusement parks. A happy practice followed by New Jersey children for generations.

Olympic Park, in Irvington and Mapwood, seems to be getting almost more than its share. It is one of the few big family resorts left in the metropolitan area.

Children also are welcomed at the pool.

1st National Quarter Century Club Has 19th Annual Dinner

THURSDAY, JUNE 24, 1964

...Editorial...

There Is a Choice

It is expected that the \$6 billion medicare bill will reach the floor of the Senate in early July. And, for the sake of the national health, it is hoped that all the Senators will recall some words spoken by Donovan F. Ward, M.D., president of the American Medical Association, in testimony given before the Senate Finance Committee.

He said: "This may be your last chance to weigh the consequences of taking the first step toward establishment of socialized medicine in the United States. While there is still time, we urge you to pause, consider and act wisely."

Dr. Ward called on the experience abroad to support his case. As he pointed out, in the nations that have adopted a centralized government health care program, the results have been long waits, poor equipment and facilities, short and impersonal examinations, red-tape record-keeping. He asked: "can we hope the American plan will be so different as to negate all these adverse factors?"

It will soon be up to the Senate to decide.

School Vacation Time Is Traffic "Danger Time"

With thousands of school children in the Passic Bergen Hudson area soon to be on summer vacation, the North Jersey Automobile Club of the AAA today issued a warning to drivers with special care around playground areas, amusement parks and swimming pools.

"Now that the summer vacation period is upon us, children will soon be out on the streets at times when they have been in school," said Captain H. Hittler, executive vice president of the Auto Club.

"Many of them will congregate in play areas, such as swimming pools and beach fields, but others especially the tiny tots, may not always be as wise in their choice of playing spots. As any parent can tell you, youngsters often like to play in such dangerous areas as the street, alleys and driveways."

One Hundred Lives Lost in Drowning Accidents in '64

One hundred lives were lost in drowning accidents in New Jersey last year, and close to 10,000 other persons are estimated to have suffered various degrees of injuries in swimming, bathing and

ECONOMIC HIGHLIGHTS

Under a Saigon dateline, Jack, pointing this discouraging view, Most of the correspondents in Viet Nam have been saying all out bombing of North Viet Nam will not force the Communists to cease their war in the South.

"Nor are the 45,000 American military men presently in South Viet Nam going to be enough to win the war on the ground. Many thousands of combat troops will be needed, and even then the war will continue for years if it is to be kept non-nuclear."

Mr. Folsie is not alone in re-

viewing a "police action" as the best solution, but it soon grew clear that the U. S. has yet been willing to go to bomb North Viet Nam, for instance, ground troops and vast quantities of supplies. The situation in Viet Nam does not provide an exact parallel, but there certainly are unpleasant similarities.

We have stepped up the war there, it is true, primarily through aerial attacks. But there is no doubt among the military that the war could be brought to a successful conclusion in a relatively brief time.

Men on the ground in Viet Nam are also drawing comparisons between this war and the Korean War. The latter was

of goods and services bought by these manufacturers from other businesses, most of which were comparatively small, was \$11.4 million. Payroll and labor benefits came to \$12.3 million. Observed depreciation of \$7.6 million. Taxes took \$14.9 million.

This left \$10.8 million as profit. But not all that was paid to the owners in dividends. They received \$6 million. The remaining \$4.8 million was ploughed back into the business.

To sum up, the owner's share of business' financial cake is a modest one—less than half of the government's take in taxes.

What if the average speed of cars traveling main rural highways during periods of low traffic is 45 or 60 m.p.h. At any rate, the speed of traffic is not the average speed of traffic. The average speed of traffic is 45 m.p.h.

It can't be too often repeated that, according to all the available evidence, the average American has a woefully distorted opinion of the size of the profit earned by business, and particularly big business. He thinks that they represent a far larger proportion of the selling price of goods and services than they actually do.

A publication of The American Economic Foundation tells a significant story. It begins with the fact that in 1963—the last year for which the figures are available—the 100 largest manufacturers in the United States sold \$157 billion worth of goods.

What happened to all that money? This happened: The cost

of a "police action" as the best solution, but it soon grew clear that the U. S. has yet been willing to go to bomb North Viet Nam, for instance, ground troops and vast quantities of supplies. The situation in Viet Nam does not provide an exact parallel, but there certainly are unpleasant similarities.

We have stepped up the war there, it is true, primarily through aerial attacks. But there is no doubt among the military that the war could be brought to a successful conclusion in a relatively brief time.

Men on the ground in Viet Nam are also drawing comparisons between this war and the Korean War. The latter was

KNOW YOUR GOVERNMENT

DEBT FOR LOCAL SCHOOLS REACHES BILLION DOLLARS

Reflecting a vast investment by New Jersey taxpayers in public education facilities throughout the State since 1946, the gross capital debt of all local school districts exceeds a billion dollars.

Indebtedness for public school purposes totaled \$1,444,000,000 on December last. This represented an increase of \$87 1/2 million, or 6.5 per cent, over the \$1,356,500,000 reported at the close of 1964.

Last year the school districts added more than \$55 million to their aggregate debt to top the billion dollar total for the first time. Over the years since 1950, total school indebtedness has risen an average of over \$62 million per year. In 1957 and again in 1962 the annual debt increase topped 200 million for each of the years as school building plans proceeded apace.

The trend in capital debt of New Jersey school districts over the period 1950 to 1964 is highlighted in the following table:

Year Ending	Gross Debt
1950	\$ 171,450,712
1955	415,552,807
1960	761,228,250
1964	1,444,000,000

The annual tabulation of school district indebtedness throughout the State was compiled by the New Jersey Taxpayers' Association from reports issued by the State's Division of Local Government. The totals include bonds and notes authorized, issued and unissued.

It is estimated, according to the State Department of the Motor Vehicle, that 75 per cent of all car thefts could be eliminated if people did not leave their keys in the car.

Another New Jersey troupe,

Almros Trio On Stage at Olympic Park

The Almros Trio of Jugglers, known from TV to Tivoli Gardens, will be on stage next week at Olympic Park, practicing their own back yard. In private life, they are the Steinborn family of North Bergen.

Albert Steinborn is the fourth generation of Danish circus stars. His wife, Nina, is a former clown. Sixteen-year-old Ronda Steinborn is a veteran member of the act, first pruned into public appearance in Copenhagen four years ago, when her mother became ill.

The net's name is taken from the first syllables of their names. They are the Steinborn family of North Bergen.

What are the facts behind the big switch?

Fact! 48,000 homeowners in P.S. territory switched from other fuels to gas heat in only the last 5 years.

Fact! Gas heat is clean, quiet, economical, gives real comfort through even the coldest winters. That's the basic reason for the "big switch".

Fact! There are now more than 300,000 P.S. customers who heat with gas. This is ten times as many as 15 years ago.

Fact! Public Service gives prompt, courteous service; without charge, on the gas burning parts and controls of gas heating equipment.

Fact! Conversion to gas heat is easy and can take less than a day to complete. And this is the time of year to change over!

Fact! You can get a free heating survey by calling your plumbing contractor, gas heating installer or your nearest Public Service office. Call today!

Hawthorne Cheviots Meet Norwalk

(Continued from Page One)
mate John McCarthy, who both were Huntington, L. I., uniform last year.
McCarthy was the other big gun at the plate for the Cheviots Saturday night. He went four-for-six in the double-bill, including a three-run first-inning homer in the ninth that signalled the downfall of the Long Island visitors.

McCarthy and Horvitz Pines are currently leading the team at the plate with identical .450 averages. (Continued from Page One) have been up the same number of times (17), scored the same number of runs (4), hits (17) and doubles (4). Pines is currently riding on a 11-game hitting streak.

123 Members Attend Meeting

(Continued from Page One)
22nd, and Glenn Blanche is taking reservations. It is expected that a large crowd will attend. Friends of our club are invited and can make their reservations with her. Tickets are \$4.75 for nonmembers, and include the bus fare and lunch.

Catherine Bailey reported four members on the sick list. They are: Lydia Waterman, Nabel Reynolds, Norman Thomson and Charlotte Hayes.

Rosary Society Installs Officers

(Continued from Page One)
sisting on committees and do- ing cakes are destined to re- port to the serving area with de- liciousness.
Installing officers are: Pres- dent, Mrs. Witter; vice president, Mrs. Gilman; secretary, Mrs. Liddy; treasurer, Mrs. William Glassof.

Hawthorne Day At the Fair

(Continued from Page One)
town was moving on wheels. The carnival began pulling into the Roosevelt (Avenue) parking lot at 11 a.m., and citizens of Hawthorne, meeting their large white steamers toward the New Jer- sey Pavilion, an exciting, up- and-down ride of admission and the of happy holiday out to see minimal cost bus ride, just that no fun was missed.

Mayor Day had them wel- come at the pavilion. Smiling, he stood before the microphone at the beautiful New Jersey pavilion made up of bridged is- lands surrounded by moats of

water sparkling in the sun. "I am Mayor Day," he said and as if no one knew, "and I bid you welcome to Hawthorne Day at the World's Fair. I am proud of my town, he continued. Proud of the men and women—the service clubs—that are in it. Have a good time."

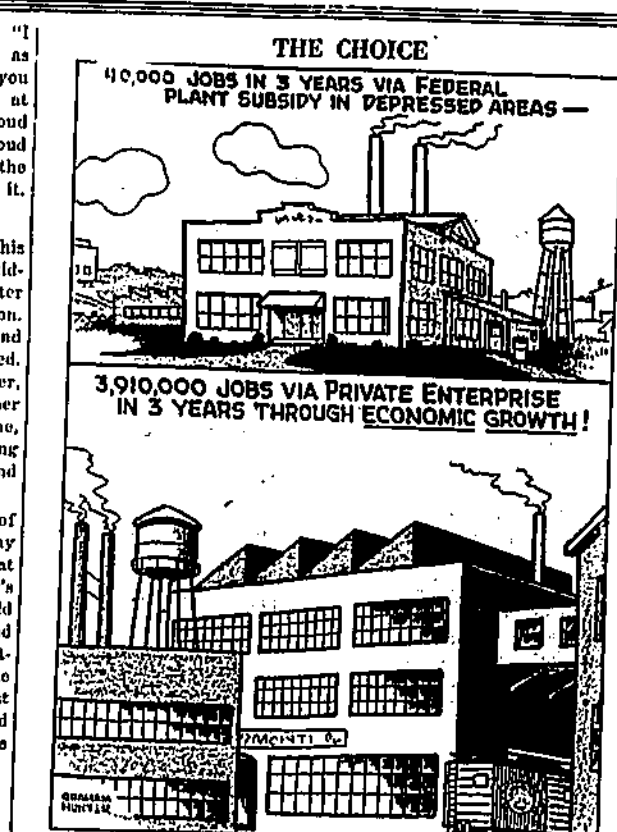

Commissioner Kirkman in his brief but friendly welcome, bid- den about the plentifulness of water all about them at the pavilion. Take "a bucketful home and water your lawn," he suggested.

Lovely Mrs. Lynn Hansen, Mrs. Hawthorne 1966, added her touch to the occasion when she, too, bid welcome to the throng and bid them to be cheerful.

Norman Hopper, president of the town, only in his quiet way showed the pleasure to see that so many had come for the day's fun. He hoped they would have "a good time." Raymond Hinder, who sponsored the cat- ivity Pavilion, an exciting, up- and-down ride of admission and the of happy holiday out to see minimal cost bus ride, just that no fun was missed.

Mayor Day had them wel- come at the pavilion. Smiling, he stood before the microphone at the beautiful New Jersey pavilion made up of bridged is- lands surrounded by moats of

FOR THE LIVING
Have fun this summer,
But know what you're doing,
And do it the right way.
That is the safe way!

40,000 JOBS IN 3 YEARS VIA FEDERAL PLANT SUBSIDY IN DEPRESSIO AREAS —
3,910,000 JOBS VIA PRIVATE ENTERPRISE IN 3 YEARS THROUGH ECONOMIC GROWTH!

Job Scramble

The federal government in its efforts to create more jobs in so-called "depressed areas" has offered industry below-market interest rates for plant and factory construction in these areas, through the Area Re-development Administration.

These subsidized plants do not create new jobs—they merely shift available jobs from one place to another. They do not create new markets, but compete for the same sales dollar as the plants established at no cost to the taxpayer.

In testimony before the Production and Stabilization Subcommittee of the Senate Banking Committee, William C. Heyn, the spokesman for the National Association of Manufacturers said, "Since industrial development is a highly competitive activity, it is unfair and discriminatory for the federal government to take sides in behalf of some areas thereby working against other areas to create competition for their products and jobs."

If this program is allowed to continue, it could discourage plans for private plant expansion, lead to built-in costs and inefficiencies of subsidized plants instead of a lean competitive economy needed to compete in world markets, and to unneeded industrial development for the communities involved.

Strolling Along With Pat Ferro

Colleen Delhurst and James Daily are teamed up with Robert Darke and Dan Travanti for an excellent foursome in the playhouse on the Hill version of "Who's Afraid of Virginia Woolf?" That play seems quite funny in the first act, but as the story unfolds to laughter be- comes grim. It develops into a shattering drama as the actors thrust and parry in a game of fantasy and reality. This pro- vative presentation is certain to spur the after-theater conver- sation. Virginia Woolf will be at the playhouse thru the 27th. Next attraction on the Hill Shopping Center Stage will feature Vaughn Meader in "Abundantly Yours" starting July 6 for a two-week pre-tryout.

Charlton Laird is out with a new Premier Book entitled "The Miracle of Language." This is a fascinating story of our language told with wit and im- agination—a thrilling voyage of discovery through the world of words. Overhead at Michael's An- napolis alongside the car at the busy Park: "Most women would rather be treated like a girl friend than a wife." Overhead at the Great Room in Rattazzi's First 01m: "World can't. I don't have one."

Approaching a traffic light, every dog of Delhurst was blocked off by a woman driver. As he pulled alongside the car at the busy Park: "Most women would rather be treated like a girl friend than a wife." Overhead at the Great Room in Rattazzi's First 01m: "World can't. I don't have one."

OUTDOOR TIPS

"TAIL LEAD"
If you are trout fishing with bait and the bottom's rocky, try this tip to prevent hanging up. Where you tie the leader on to the small loop have a two-inch "tail." Now you put your BB shot on this tail. If it hangs, BB will pull off saving the hook and bait.

WHISTLE
A whistle is a good wood's emergency device. You can blow it for hours while shouting outside ruins your voice. Mothers take note: this idea works just as well for calling small fry.

DEER CAN MARKER
Want to locate your best ice fishing hole when you come back to the lake? Let a bear can freeze in it.

BLUE FIRE DOG
Tubes of glue used to cement plastic usually burn with hard hot flame. Carry a tube and use them even when dogs are run- ning slowly. Use a light collar so the dog can break it if he got hung up though.

SURE FIRE SUNNY BAIT
This is sure fire we are as- sured. Catches sunfish, perch, bluegills and catfish. Take cook- ing dough and mix in 10 pieces of angle worms. Add mulber- ries. If you can't get mulberries, substitute groundworms. Soak overnight. Ask the fish.

WATERPROOF MATCH BOX
Maybe one of the oldest tips and probably one of the best is to use an empty 12 gauge shot- gun shell over an empty 16 gauge shotgun shell as a water- proof match case. Shells are such that the two hold tightly to- gether.

SPONGE BAIT
Where salmon eggs take fish, try cutting red sponges into lit- tle balls and use them when the real thing is hard to find.

THE DRIVER'S SEAT

One of the weaknesses of de- velopment in most states is the ease with which a driver can reclaim his suspended license. He merely pleads that he needs his license to make a living and it is likely to be returned to him with- out further ado.

These dangerous drivers un- derneath on the public.

Our fire was ignited by a bit of blatant brazenness by the pres- ident of a Chicago taxi cab union. Quoth he: "When a driver's li- cense is suspended for three star- ling traffic violations, we go right over to the Secretary of State's office and get a 'hardship' license so the driver can go back to work and earn a living."

The dangerous driver also can resume the roadhouse tactics for which his license was suspended.

Most people fight like cornered wolves to recover their lost li- censes. If they don't succeed in endangering public officials into re-

LEGAL NOTICE
