Stop crabgrass before it starts

If you are unhappy with your lawn, we can help. crabgrass is the worst enemy of a good lawn. It crowds out your plants, makes your soil dead, and ruins your garden. We offer the most effective crabgrass killer, at low cost. Call us for an estimate. We also sell grass seed, fertilizer and other supplies to help you maintain a healthy lawn.

...Editorial...

Four Choice a Basic Right

The principle of freedom of speech is one of the cornerstones of our democratic way of life. Freedom on the stump, in the courtroom, and on the political platform is an essential safeguard for the maintenance of a free society. It is a right that must be protected and preserved at all costs.

First Shipment of Japanese Art at National Museum

The first shipment of Japanese art to the National Museum arrived recently, marking a significant step forward in the museum's efforts to diversify its collections and provide a more comprehensive representation of world cultures. The pieces include traditional ceramics, calligraphy, and woodblock prints, each with its own unique historical and cultural significance.

Now there's a cure for crabgrass

Crankshaft has found a breakthrough cure for crabgrass! This new treatment not only kills the weeds but also prevents them from coming back, ensuring a beautiful lawn throughout the season. For the best results, apply the product according to the instructions on the label, and enjoy a weed-free garden all summer long.
