Why a prominent banker urges you to buy Savings Bonds

The world's most successful banker, J. P. Morgan, is urging you to buy savings bonds.

"Savings bonds are the best way to invest your money," he said. "They are safe, they are secure, and they can help you build a better future."

Morgan explained that savings bonds are backed by the full faith and credit of the United States government. He said that they are a great way to save for college, retirement, or anything else you might want to save for.

"I urge everyone to buy savings bonds," Morgan said. "They are a great way to help your country and help yourself at the same time."
