SUNDAY, MAY 11th

Mother Doesn't Want A
"Fuss Made Over Her"

The idea of a special "Mother's Day" card is like a new strain of weeds. What is it just a year—what is it a heart
of the time, making things for others that they have so little to think of ourselves. Their thoughts are
their blessings and worries—and all the love therein.

Next for one moment could you not possibly
not last willingly in any ordering. Just the same,
she can't keep our—her sons and daughters— from
looking up to her always and forever as the deas
never known on earth.

**Editorial Comments**

Near the Brink

Every day that goes by this administration is further increasing the chance of international disaster. The truth is that the leaders of this nation have not only no idea of what in the world they are doing, but they are not even aware that they are doing anything.

Memorial Day Parade Largest In History

Plans Complete For Largest Memorial Day Parade In Borough

By [Author]

The Memorial Day Parade in Hawthorne was the largest ever with a capacity crowd in attendance. The parade featured over 100 entries, including marching bands, floats, and veterans from various wars. The highlight of the parade was the "Double Decker" float, which was declared the best float of the parade. The parade ended with a spectacular fireworks display that lit up the sky.

Statewide, Memorial Day is observed as a day of honor and remembrance for those who served and gave their lives for their country.
