# ...Editorial...

### That "Kilowatt Gap"

One of the great controversies of the time concerns the real or alleged "missile gap" between this country and the Soviet Union. There is no general meeting of minds as to the actual situation-apparently it is a matter of how one reads and evaluates the available in Brennan, Carrie Ferris, Martha: Violet Society

It has also been argued that in coming years we Garrison, Jessie Donnelly, An- Mrs. Charles Leigh, President evening, May 4th, at 8:30 p.m. may be faced with a 'kilowatt gap' -- that is, that Rus gila Gennaro, and Rinehart Yen of the Happy 'Ours African Vio. in Franklin School. Mrs. Kenneth sia's intensive effort to develop her electric power complex will ultimately result in Soviet superiority in day table decorated by Mabel dist Church at 8 p.m. tonight. this vital field, to the grave detriment of our position as an economic power and to our defensive strength.

That argument has been extended to include a demand that the government embark on a crash program of socialized nower develonment as the only way of deal.

Two new members at the neet.

Two new need to make the neet.

Two new need to make

Well, an argument is one thing and a fact is anonther. And there is a case where facts can be sumcent year, says the Federal Power Commission, the avector of today's youth in tomorrow's us would want to save lives." erage American home consumed 3,366 kilowatts of jworld, the needs and interests of

comorrow? Russia's goal for 1965 is 119 million kilowatts. U. S. capacity in that year is expected to be 245 million. So the gap in our favor will be widened to 125

Top experts say, without equivocation, that there planned to increase the effectiveis no possibility of Russia overtaking the U.S. in nower production in the foresceable future. It would be Herbert Hoover, Jr., a member a great thing if the "missile gap" were as easily under- of the national youth-guidance. stood and solved as the non-existent "kilowatt gap."

## How to make mowing more satisfying

If you're fed up with the mess, the smell and the racket of that hard-to-start gasoline mower, it's time you discovered the joys of the SILENT SCOTTS. Nothing to get ready, no lumes, no noise. You get the smooth, even cut that makes your lawn look its best every time - plus the real satisfaction of rolling through the job quickly and quietly. And service problems are a thing of the past. The SILENT SCOTTS is designed, engineered and guaranteed by Scotts, the people who know lawns best, to make cutting lawns so easy and so rewarding you'll actually be glad you moved!

The New Silent Scotts Handmower The 5M cuts 5000 sq ft in 40 minutes 39.95 The 10M cuts 10,000 sq ft in an hour 49.95

PREFER POWER? Discover the Silent Scotts Electric. No messy fueling, no smelly fumes, no engine roar - instant starting every time! The safest power mower ever designed - for the best crew cut your grass ever had, 119.95.

With the Winter season past and Thoroughbred racing getting into full swing the country over, Spencer J. Drayton, executive vice-president of the Thoroughbred Racing Associations and head of TRA's investigative agency, the Thoroughbred Racing Protective Bureau, had this word of caution for those who make up a 34,000,000 attendance figure for the sport, "Do not take any advice from a stranger. The 'owner', 'trainer' or 'fockey' who introduces himself and offers 'inside' information is a tout." A few years back, Drayton recalls, a well-known tout, who occasionally picked the right horse for some of his "clients", picked the wrong man to victimize. He approached a TRPB agent with

# Now you can buy money on the installment plan -and get paid for it

ing a \$1,000 bundle of cash on the installment plan. No money down. You get 334% interest on each installment at ma-

turity, which means your \$1,000 costs you only \$750. Sounds pretty good, doesn't it? This is what happens when you buy U.S. Savings Bonds on the Payroll Savings Plan. To start, just tell the company where you work to set aside \$18.75 from your pay each month. In 40 months you'll have Bonds worth \$1,000 at maturity.

The Payroll Savings Plan is more than an easy way to save. It makes certain that money you want to keep doesn't slip through your fingers. Why don't you start saving this sure and easy way, right away?

## MORE ADVANTAGES TO THINK ABOUT

You now get 3% % interest, at maturity. This new rate, which went into effect June 1, 1959, makes your Bond money grow faster. Series E Bonds now mature 14 months earlier-in just 7 years, 9 months. You can get your money, with interest, any time you want it. Bords are a ready reserve that you can cash any time at any bank. But it pays to keep them. Your money is guaranteed by the U.S. Government. Bonds are an absolutely riskless investment. The Government promises you that the cash value of your

Your money can't be lost or stolen. The Treasury will replace your Bonds, free, if anything happens

You save more than money. You help save the ace. Every Bond you buy helps keep our nation and our nation's economy strong.

Here's how you can reach your savings goal with U.S. Savings Bonds in just 7 years, 9 months.

Belmont Park where on June 3 the Triple Crown events will culminate with the 93rd running of the Belmont Stakes with \$125,000 added, has long been known as the testing ground for Champions. Less well-known is the fact that the park-like race track was also the course for the first major the race to the source for the first major international aviation air meet took part. Thomas Fortune Ryan, whose grandson, E. Barry Ryan's Normandy Farm horses still run at Belmont, put up \$10,000 for a special race from the track to the Male of Liberty and back. Claude Grahame-White was the winner of the Gordon Hennett Trophy. John B. Moisant won the race to

It's A Bitter Pill

It's enough to make a man sick. We mean this business about Uncle Sam wanting to change his name Gessner gave the following e to Doctor Sam.

The government wants to take care of our health eligible for \$165 per month oldin later years. It seeks to supervise medical care from Washington, D. C.: go along with us to our doctor's a yearly total of \$1980 in benefits. The man works 8 office,-and watch while we're getting a shot of social months during 1961 for \$250 per

It's all spelled out in the Medicine for the Aged legislation promoted by the government.

Briefly, it would extend hospital, home nursing and nursing home service to some 14.2 million persons aged 65 and over who now are receiving social security retirement benefits-and who, of course, will not pay for the health benefits.

Even their present old-age benefits are mainly ple mathematics, you can figure that every present beneficiary withdraws in a few months what he has contributed during his years of employment, After he has received the equivalent of his own

contribution, he is supported by the Social Security Administration—or, more exactly, by the taxpaying population. And the program would lead to a further cut in take-home pay because of event greater increases in the Social Security tax-already rising and scheduled to reach 9 per cent of payroll within just eight years.

If you're still well enough after reading this, how about penning your protest to Socialized Medicine to your legislative representatives in Washington?

Could You Use Additional Income? We have several openings for dignified, sincere men and women over the age of 40 in your community, full or

### The Reason Why

The long-standing proposal to extend the federal wage-hour law to a large segment of the retail industry, which has been exempt ever since the law came into being in the depressed '30's, has met with a great deal James P. Mitchell of opposition. And that opposition may have led people Addresses GOP to believe that retailers commonly pay wages below the existing federal standard of \$1.00 an hour, or the

The American Retail Federation reports that, according to official government tabulations, retail wages averaged \$1.82 an hour last September. This is a higher wage than is paid in several industries now covered

why retailing opposes extension of the law, in that its State administration. minimum. The reason for that is that retailing has room for a substantial number of unskilled workers, beginners, part-time housewives, high school students and others whose value is extremely limited. So, the Fedhappen if the wage of this 25 per cent segment is arbitrarily increased. Retailers will, whenever possible, reduce this marginal employment—and/or be forced to raise prices to cover an increased payroll,

unemployment and inflation in an industry paying an

Extornal akin temperatures are expected to range from minus 10°F to an high os 2,000° as the spacecraft built by McDonnell Aircraft goes through varying atmospheric conditions during launching, orbiting and re-entry. Protection of the spaceman and equipment in these exiremes of temperatures is as vital as perfect functioning of the vehicle's components. To provide maximum protection from heat with a minimum of added weight, reaterials required to do the insulations deficiencies which only a year or two age would have been considered theoretically impossible.

The two thermal insulations repaired at the Johns-Manville Research Center at Manville, New Jersey, largest thermal insulation laboratories in the world. One of the insulations, "Min-K", actually has a thermal conductivity considerably marked the capsule is re-entering the upper atmosphere at high speed.

A highly efficient heat shield will absorb only a small portion of the heat energy created during re-entry. However, the conical, section skin temperatures are projected passed on the spacecraft skin will very at different locations from a possible respected to a content of the insulations when the capsule is re-entering the upper atmosphere at high speed.

## Let me show you how to get better roses, more continuous bloom

With roses, the surprising secret of more blooms is-more leaves! Now-with the new Scotts Rose Program-it's so easy to keep foliage strong and healthy, even a beginner enjoys success.

This amazing applicator is the key. It's called the Scott's Zephyr, and it's designed to apply new HAZE-Scotts all-in-one protection against insects and disease.

The HAZE container fits snugly in the Zephyr. Nothing to mix, measure, fill or spill. To apply, just point the deflector at the base of the rose bushes, turn the crank gently, and walk along the bed. An atomized dry mist envelops the plant—depositing a nearly invisible HAZE film on both tops and undersides of the leaves. Come see and save. You'll find these new Scotts Rose Program products at our big success with Roses display.

> Introductory offer saves you \$5.00. Ask us about it.

Ontario-Refreshing Vacationland

Motorboating in Ontario What could be more refreshing than slicing through the cool blue of one of Ontario's fresh water laker... feeling the invigorating spray on your face? Later, take a cue from these invigorating spray on your face? Later, take a cue from these young people and enjoy a quiet picnickunch on the sun-splashed shore. They're spending the day at beautiful Burleigh Falls.

Motorboating, fastest growing in popularity of all water sports, is at its best on Ontario's 250,000 fresh water lakes.

The Muskoka, Haliburton and Lake of Bays districts—1,000 square miles of lakes—are a celebrated paradise for motorboating enthusiasts. Resorts offering comfortable, modern accommedations, are built on the lake shores. Easily accessible by boat are many of Ontario's historic sights
