

CANFIELD HIGHEST IN COUNTY

PASSAIC COUNTY'S LEADING WEEKLY ** THE VOICE OF THE TAXPAYER

THE HAWTHORNE PRESS

VOL. XVII NO. 45 HAWTHORNE, N. J. THURSDAY, NOVEMBER 5, 1942 PRICE FIVE CENTS

MR. FAIRHURST GOES TO WASHINGTON

SO DID A LOT OF BORO MR. SMITHS GO TO WASHINGTON, BUT THEY GOT PAID

Out of the clear blue sky our local governing body has become penny-wise or should we say penny-pinching. After a long list of just such "excursions" to Washington, in which the "official" was accompanied by other members of his family and the trip was not for the benefit of the public at large, and the bills were paid without question, we do not see why Commissioner Fairhurst should pay his own expenses. (These personal trips to Washington and elsewhere are on record and the inquisitive taxpayer may easily satisfy his curiosity if he will consult the minutes of the Commissioner's meetings - if they are legible) or a written record, to the paper will be answered with the information we have on hand and it ain't a little bit.)

Of course there is also the little matter of "official diplomacy" if the action of Fairhurst's fellow commissioners could be placed in (Continued on Page 16)

K. Fairbrother Is Survivor Of Wasp

Among the men on the ill-fated aircraft carrier Wasp was a Hawthorne boy, Kenneth Fairbrother, son of Legationaire and Mrs. Harry Fairbrother of 60 Washington avenue, who has been home on a 30-day leave.

One of the last men to leave the sinking ship, young Fairbrother reports that the men remained calm during the entire encounter with the monster always high. All men were off within an hour and a half after the order to abandon ship was received, he said.

A graduate of Hawthorne High School, Fairbrother joined the (Continued on Page 16)

GORDON CANFIELD

MASS MEETING PLANNED BY AIR RAID WARDENS

AT 8 P. M. ON FRIDAY EVENING

Fifteen hundred Civilian Defense Volunteers are expected to be present at the first mass meeting of the Hawthorne Air Raid Wardens to be held Friday evening, at 8 o'clock in Hawthorne High School.

Three important messages will be delivered by George H. Shay, chief of training division, New Jersey State Defense Council; Evan H. Thomas, training division, New Jersey State Defense Council; and Maj. Myron E. Barrett of the United States Army.

Those men, all experts in their respective fields, will reveal to (Continued on Page 16)

Boxing Coach Offers Services To Borough

Charles Witten, veteran boxing coach of Hawthorne, is offering his services to the V.F.W. American Legion, Volunteer Firemen or any other similar organization in the borough.

Because of problems of light and heat at Lincoln School where Witten has been coaching local youngsters for the past few years, it is necessary to locate new quarters for the boys.

You can make sure that your estate will be a real benefit to your heirs. The Citizens Trust Co. 140 Market Street, Paterson, will help you in this.

THANKS HIS SUPPORTERS

Gordon Canfield was returned to Congress for a second term with a majority of 28,124 the greatest ever given to any candidate in the County of Passaic.

In a breakdown of the vote he was the high man in every city, town and municipality, with the exception of Passaic, where he ran behind the votes an Bloomington where he lagged by only six votes. Thus, the overwhelming popularity of the congressman is not a freak in which a predominately strong section of the voters may give a candidate a plurality without necessarily representing a cross-section of the voters.

Probably, the greatest support can be claimed by Hawthorne where the congressman received about half as many votes as he received from Passaic (campaign headquarters) a city five times the size of Hawthorne.

With his popularity and vote getting ability, the next election may well turn up a Senator Canfield elected to the upper House.

Immediately after election Canfield expressed his deep gratitude to the people of the County who indicated his desire to get back to work at the national capital. His statement follows:

Whenever I speak of my constituency I describe it as the finest (Continued on Page 16)

Newly Ordained Men Speak At Gospel Church

The Sunday afternoon meeting at the Hawthorne Gospel Church will bring as its speakers, two young men formerly associated with the Young People's groups of the church and now engaged in Gospel work in other parts of the country.

GEORGE BURKE

Did A Fine Job

George Burke who guided the campaign which returned Gordon Canfield to Congress was lauded by his chief and top men of the Republican party for the splendid work he did.

Despite his age, he was able to reach every corner of the county, and accomplished more than a young man might have done. It was his excellent performance plus the cooperation of the loyal Republican workers which made possible the new record just established by Congressman Canfield.

Couple Observe Tenth Anniversary

Mr. and Mrs. R. William Davis of 135 Van Winkle avenue, were guests of honor at a surprise party given at the home of Mrs. David's parents, Mr. and Mrs. Clark Nickel at Arlington avenue, on Sunday in celebration of their Tenth Wedding Anniversary.

The couple received many handsome and useful gifts including a large platform rocker.

A costly chicken dinner was (Continued on Page 4)

Aviation to Revolutionize America's Living Habits

Civil Aeronautics Administration Provides Necessary Impetus; New Developments to Have Social as Well as Material Effect.

By BAUKHAIGE
News Analyst and Commentator
WNU Service, 1341 H Street N.W., Washington, D. C.
One thing the war will produce, upon which there is general agreement, is a radical change in the living habits of the nation. And there will be basic changes in the living habits of the nation, produced by development of the airplane, as great or greater than were produced by the automobile.

The automobile and the airplane have made it possible to revolutionize man's life. The airplane, according to the experts who manage to match a moment to the change in the world, is going to change big town life and perhaps something far more important—small-town life.

Recently I had a long chat with one of the men who heads up a plant that is turning out planes for the United States. He is a full-time job. But he is a dreamer, too, and the moment he gets a chance to let his mind run free, he talks about the future. He paints an epic picture of the airplane of tomorrow.

"What the roads did for the automobile, the airfield will do for the airplane," he said to me, watching imaginary airplanes in a blue cloud of cigar smoke. "We now have 25 times as many airports as we had before the war. They are in many remote places. These planes won't be remote any more."

Nest for Warbirds
When he said that I couldn't help recalling a trip I made recently on a special plane across the country. Because we were going to see a lot of airplane events anywhere, we were permitted to "look"—I mean by that, the curious word—even at the planes in all ordinary passenger planes. He said that I would be the first to see it. I was, of course, but I can tell you it was hard to believe. Suddenly in the midst of the where the runways of a field below would be visible. A few miles away I could see automobiles or railway trains moving along like bugs or worms. I knew the passengers were looking at the landscape as they passed. But plain and hill and river and all they could see. But out of their range of vision there would be a busy airport. Only war birds were on it now, but some day commercial planes will rise from these thousands of tiny airstrips in the sky routes that will lace the world together in a day's time.

The way these dots on the air map have increased is incredible. The Civil Aeronautics Administration's way in 1941 with 355 defense landing areas designated for construction or repair. There were 225 new airports by the end of 1942 and well as 18 new airplane bases and hangars. The significant increase has been in the number of airports in the country, of which 100 were commercial. That is in fact as significant for the communities themselves pushed forward to open their eyes to the possibility of a commercial airport. The war has been a big help in this. It has been a big help in this. It has been a big help in this.

TO YOUR Good Health

RAGE AFFECTS VISION

We have all heard the expression "blind with rage" when he did something that he would not have done had he not been blind with rage.

What about being blind with rage? Does rage really cause blindness or interfere with eyesight?

As a matter of fact, rage does not cause blindness or interfere with eyesight. As a matter of fact, rage does not cause blindness or interfere with eyesight.

Dr. Barton News Letter, recorded by Dr. E. I. Strong, Mrs. R. Bull and Dr. B. Korchin of the college of physicians and surgeons, Columbia university, which show that vision is not the same when you are under emotional strain as it is when you are relaxed. Motion pictures taken of the eyes reading showed that while 20 per cent could be better when emotionally aroused, another 22 per cent became worse under strain.

"More critical was the test of how the two eyes work together. This is important for the motorist who is trying to judge the speed of an approaching car, or for the airplane pilot who is bringing his ship in for a landing." It must be able to judge distance and depth. From 14 per cent to 22 per cent of those tested became worse under stress of emotion. Only 4 per cent improved under the excitement.

These research workers therefore recommended that men whose duties require them to use their eyes under powerful emotional strain, as in fighting or any hazardous situation, should have their vision tested under emotion, not while they are sitting calmly in the quiet of a doctor's office.

"Many of the crashes which involve army pilots occur when the pilot is returning from an exciting and fatiguing fight and tries to land his speeding plane in a small field. In this situation ability of the eyes to work together is put to a severe test."

Flashes in the last war, after making poor landings, have been found to have infection of touch or frostbite. After removal of the infection, their landings were again perfect. "Citizens manufacturers fatigue products that can cause accidents," he says.

Just why the "tired" eyesight is not tested by these research workers but that it does is undoubtedly true.

Treatment for Painful Shoulders

As I have had ligaments in both shoulders torn and the left shoulder blade broken, I make it a morning habit to "loosen up" the muscles and ligaments of both shoulders by using shoulder straightening arms above shoulders most of the time. I also try to lie with my arm above shoulder with hand behind head or under cheek. I was interested therefore to read the report of Dr. R. E. Huntington and G. G. Graham, Louisville, Ky., in the Missouri State Medical Journal. These physicians state that about 15 per cent of all patients with painful shoulders and arms, seen early, have been improved or made free of symptoms, after the usual treatment, by keeping the arm up above the level of the shoulder with the hand behind the head as much as possible during waking hours, and, if possible, sleeping with arm above shoulder level. "Try the wrist to the head of the bed in a good way to keep arm above shoulder level during sleep."

'G. I.' Suit

The application of heat (induced) over the shoulder muscles is also advised. Disinfection may be used if convenient.

The pain and stiffness in this region is caused by irritation or pressure of a nerve as it passes over the first rib between certain muscles. The symptoms are pain beginning in the shoulder, extending into upper and lower arm, right down to hand and fingers, numbness, coldness and sweating of the hand and sometimes blanching or even discoloration of the fingers. The pain is increased by use of the arm in certain positions. Sometimes the only sign is tenderness of the muscle. In other cases wasting of the muscle is the only sign.

If the simple treatment of keeping arm above level of shoulder and the use of the infra-red lamp or diathermy do not give relief, operation may be necessary.

QUESTION BOX

Q.—What causes a cramp in my toes which leaves when I remove my shoes?

A.—It is not due to shoes, cramps may be due to infection. See your physician and dentist.

Q.—I would appreciate any information you could give me regarding athlete's foot.

A.—Athlete's cases often are helped by Whitfield's salicylic-acid-sulphur drug made up by your druggist.

For Atlantic City Cops

Development of portable police radio receiving unit for use by Atlantic City officers on foot or motorcycle, and organization of police radio unit by the International City Managers' association.

Atlantic City's portable receiving set, developed after two years' experiments, permits an officer to keep in touch with headquarters at all times whether he is on foot or on motorcycle, eating his lunch, or riding a motorcycle or even car.

The portable set weighs approximately 25 pounds and is 14 by 24 by 34 inches in size, with a small antenna which can be thrown over the shoulder or seen into the officer's coat. The receiver has four tubes and a flashlight cell, good for four to six hours' service, for power. While the number of tubes can be cut to three with a corresponding increase in battery life, three-battery power does not give enough volume for use on a motorcycle.

Santa Monica, Calif., organized its mobile police radio unit, operated by a corps of police radio reserves, for emergency service in event regular police radio equipment is disabled or additional field equipment is required, according to the International Association of Chiefs of Police.

Fourteen two-way police radio cars and a 50-watt portable transmitter installed in a house trailer make up equipment of the reserve mobile unit, with the house trailer to be used to supplement the main station or serve as a police sub-station. Radio equipment of this unit was furnished by the police department and the house trailer by the reserve.

Lights of New York

A metropolitan railroad terminal with trains constantly arriving and departing 24 hours a day, is normal under a piece of noise, confusion and great activity. In wartime the noise, confusion and activity increase a hundredfold. Added to it are thousands of men in uniform who are being sent here and there about the country for some task or perhaps on a journey that eventually will end at a distant battle-front.

A scene at the Pennsylvania station the other morning was typical. Several hundred sailors, their white uniforms immaculate, their black shoes shined, their clean-shaven faces scrubbed, had just arrived from somewhere and were plainly on their way somewhere else. Without command, they fell in quickly, ready for their shuffling. A command and they moved away like clockwork, their cadenced tread audible above station noises. Then came a company of soldiers. Their nonchalance and precision of movement proclaimed them to be regulars or men who had completed further training, their bearing being further confirmation of the assumption. They took their places—officers and men who had been in uniform, officers and men on their way to other units and all seemingly in a great hurry.

In a space guarded by vigilant and efficient military police, were perhaps 200 young men not in uniform—boys who had just been called up by their draft boards. Almost all were working clothes and few had coats. Their baggage was exceedingly light. In contrast with the men in uniform, they looked seamy, down at the heel and exceedingly untrained. Also they lacked assurance. A stocky, sun-bitten sergeant rounded a box. In the confusion, his voice was inaudible to those of us on the outside. But the boys in the reserved space heard him. They lined up in list or non-fashion and listened intently as the sergeant gave them more instructions. The policemen got down and the recruits, following him, walked, not marched, to an entrance of a stairway leading to a train.

Relatives and friends were present in numbers. As the boys who had been called to the colors, started away, a shout went up, a shout to which was a confusion of names. Some of the boys looked back. Others didn't, either because they had not heard their names or because of nerves. Many tears. Mothers wept openly and unashamed. So did sisters and even brothers. Most fathers strove hard to make emotion. But there was much shouting of noise—also many masculine eyes were too bright. And when the last of these boys had disappeared, the crowded station seemed strangely deserted.

A tall worn man whose grizzled bands were calloused by the use of his hands, his suit looking as if it had been pressed only that morning.

Portage Parties Are Peril to British Tea

LONDON.—Perhaps it won't be much of a surprise if one of these days some fine "portage party" is other is recorded among the latest of afternoon teas, have been held with more than a hint of the government's Scottish of tea. With blarney returned, the idea may spread.

Baling Wool Instead of Bagging

Baling instead of bagging wool would help the war effort. Recent experiments in baling wool make this evident. In joint tests the agricultural marketing administration and the Montana agricultural experiment station at Billings found that the baling of wool for marketing saves substantially in shipping space, in burlap to cover the wool, and in freight costs. A second-hand cotton baler, supervised in the South by more modern equipment, was used in the tests.

Slightly more than two freight car loads, or 47,000 pounds of wool were used in the baling experiments. Baling reduced the bulk of the wool by at least 50 per cent and the use of burlap by about 30 per cent. After baling, the wool was shipped to a securing plant in one 40-foot freight car instead of the two in which it arrived at the experiment station. Cotton to be baled the wool to 60 bales instead of 122 bales. This means a considerable saving in freight charges through baling. Detailed information is yet available as to exact savings, but the experiment indicates that the saving in freight charges normally would exceed the cost of baling the wool.

O'Grady Hosts At Party For Joseph Holzer Who Leave For U.S.C.G.

Joseph Holzer, of Paterson, was tendered a farewell party Saturday evening at the home of Mr. and Mrs. William H. O'Grady, on Brookside avenue.

Mr. Holzer, the husband of the former Mary O'Grady, has enlisted in the United States Coast Guard and expects to leave shortly for service.

Party decorations were carried out in a patriotic color scheme, and a large decorated cake ornamented the table.

A buffet supper was served at a late hour.

The guest of honor received many useful gifts.

Attending were: Mr. and Mrs. William H. O'Grady, Miss Mildred Auerbach, Miss Elizabeth O'Grady, Al La Barre, Miss Dorothy O'Grady, Miss Dorothy Harvey, Street Andrew Devlin, Miss Grace Sooy, Bill Booth, Mr. and Mrs. F. Ackerman, Mr. and Mrs. J. Holzer, Mr. and Mrs. J. Minors, Miss Connie Dykstra, Julius Holzer, Mr. and Mrs. William Hyde, Mr. and Mrs. R. Leitman, Miss Dorothy Corran and Mr. and Mrs. Joseph Holzer.

Mrs. Anna Bohyn Weds Matthew Loibl At St. Anthony's

Miss Anna Veronica Bohyn, daughter of Mrs. Josephine and the late Godfrey Bohyn, of 740 Lafayette avenue, and Matthew Loibl, of 150 Paterson street, Paterson, were united in marriage on Wednesday at 11:30 a. m. in St. Anthony's R. C. Church.

The ceremony was performed by the Rev. Ladislav Flak and was followed by a reception at the Robb Hotel.

The bride wore a lovely pale blue gown with brown accessories and a corsage of orchids.

Mrs. Edward Carman was her sister's matron of honor and Edward Carman was best man.

Wedding music included the "Ave Maria" and "Wedding March."

The bride's mother wore a cadet blue frock with black accessories and a corsage of red

rose buds.

Upon return from a wedding trip to New York State, the couple will make their home at Fair Lawn Center.

The bride was graduated from St. Boniface School in Paterson and the Drake Business College.

The groom is employed at the Wright Aeronautical Corporation.

Farewell Party For William Knorr

William Knorr, who left yesterday for service in the United States Army, was guest of honor at a farewell party given by his parents, Mr. and Mrs. L. Knorr, at 7 Summit avenue.

The home was decorated in a patriotic color scheme, and the evening pleasantly spent with various social activities.

Mr. Knorr was the recipient of many handsome and useful gifts.

He attended the Roosevelt School and was associated with his father in the paint business.

Party guests included: Mr. and Mrs. L. Knorr, Jacob Knorr, Lenora Knorr, Pauline Knorr, Gertrude Knorr, Henrietta Knorr, Gustav Knorr, Bill Van Euxen, Mr. and Mrs. H. Knorr, Jean Knorr, Grace Knorr, Andrew Hoffman, Bill Knorr, Garry Knorr.

Lawrence Lepari, Mr. and Mrs. L. Hattabach, Dorothy Hattabach, Mr. and Mrs. N. Robyn, David Hattabach, Aaron Robyn, Jean Williamson, Mrs. Louis Ross, Mr. and Mrs. B. Duncan Ross, Mr. and Mrs. F. Pearson, Freddy Pearson, Robert Pearson, Florence Turnbull, Kathryn Turnbull, the Rev. William Turnbull, Ruby Young, Margaret Young, Lorraine Kieft, Mrs. Mitchell, Mr. and Mrs. Jack Ladd, Danny Kanan, Leonard Johnson, and John C. Haure.

ENGAGED

Mr. and Mrs. William C. Steiner of 18 Cornell avenue, have announced the engagement of their daughter Lillian, to William W. Grace, son of Mr. and Mrs. H. L. Grace of Pittsburg, Kansas.

Miss Steiner, a former Irvington resident, is a graduate of Hawthorne High School and Drake's Business School. She is now employed as a secretary in the

Wright Aeronautical Corporation.

Mr. Grace is a graduate of the Pittsburgh Senior High School and attended Kansas State Teachers' College. He is now employed in the production test department of the same company.

No date has been set for the wedding.

John W. Courter, 18 year old son of Mr. and Mrs. Elmer Cour-

ter, of 49 First avenue, who enlisted as a mechanic in the armed corps on Nov. 6, is at present stationed at Camp Dix.

John was a senior at the Hawthorne High School.

You will have your chance to buy luxury goods when the war is over and you have been fore-

righted enough to have accumulated a stock of War Bonds.

Please look in your Telephone Directory

This is a War-time Request

Telephone "Information" facilities in New Jersey are now being used close to capacity, and must serve "about as is" throughout the war emergency. It is more than half of all calls to "Information" today are for numbers that are in the telephone directories of the calls.

It is in peace time this extra operator work is just added service. But in war time it is actually work for it takes hundreds of trained operators and a large amount of equipment away from the No. 1 task of speeding essential calls. It is a rule to look up telephone numbers in your directory before calling "Information". It will greatly strengthen the effort to keep vital war calls moving swiftly.

Women Purchasers Can Aid U. S. Farmers in War Effort

Fitting the Family's Diet With Farm Production Their Contribution

America's 6,000,000 farmers today aren't feeding a mere 135,000,000 citizens of the United States. They are also responsible for filling huge gaps in the food supplies of most of the free world—the uniformed and civilian.

This is a large order. They will need all the help they can get from the consumer at home if they are to continue to fill steadily growing food needs of the United Nations.

The consumer is a woman. If you're a man, you'll probably say, "Hey! What about me?" Well, mister, you're practically nobody when it comes to deciding what you'll eat and what you'll wear. Women buy 80 per cent of the food sold and 75 per cent of the clothes.

Since Pearl Harbor, the consumer picture has undergone radical changes. "Scarcity," "rationing" and "rationing" have become common words.

Food is no longer readily available if the housewife has the time to buy it. Some of her old-time staples are on the "want" list, items such as wheat, bananas, coffee and sugar.

Off-the-farm consumer, the urban group, comprises over 75 per cent of the population of the United States. Food and clothing combined account for about 40 per cent of every dollar spent by the average urban family.

It is therefore obvious that at no previous time has women's good management in buying been more important.

Give Consumer Protection. Urgent consumer—and rationing—has been a problem for the U. S. department of agriculture in return does not forget consumer protection in its farming for freedom program.

When the housewife buys fresh vegetables from day to day, she isn't likely to think much about the fact that the vegetables arrived on her table were grown by a farmer.

Then she would learn that by taking the "long view" for both farmer and consumer safety, the overall agricultural program results in uniform distribution of farm products, an even flow of goods to homes, prevention of market surpluses and gluts, and protection of benefits in price and quality.

The Victory Specialist, announced from week to week, are a part of this plan. They use up products which are plentiful, often preventing waste and loss to the farmer, and allowing the buyer to take advantage of the market at a better price.

Whether or not the consumer's needs are met really depends upon the accuracy with which prices are set. Last summer 23.50 per cent of the women students, about one in five, were earning part of their maintenance. A third of these were working in excess of three hours a day outside, and slightly less than half of these were self-employed.

Compressed Sugar Cane Is Used to Replace Lumber. Compressed sugar cane siding will be substituted for lumber in new buildings to be constructed at the recruit reception centers at Camp Lee, Va., Camp E. M. Kilgore, post supply officer, announced.

Captain Kilgore reported that the barracks, officers' quarters and all will be constructed with substitute material. The new material is being used to conserve lumber, and it is one of the best insulating materials known. Captain Kilgore reported that "it is widely used in building trades industries for many building purposes and is used in a siding by a surface of some chips to make it without warping."

It was said that use of the material also will add to the appearance of the buildings compared to the paper siding, which would normally be used.

University Dean Says Fewer Girls Are Working on Outside Jobs. "Among the changes in student women students had some kind of outside job."

The decrease in the number of working girls was primarily due to an improvement in family financial conditions. There are fewer applications for loans from the university. Last year compared with 25 the year before. However, the enrollment of women students is 500 below that of two years ago, largely due to demands for more money by students where jobs were formerly filled by men. In one neighborhood bank where the only women were these stenographers a short time ago, approximately 20 of the 35 employees are now women."

From the office of the dean of undergraduates, Dr. Earl J. Miller, a decrease also in the relative number of men students working outside was reported. Whereas last fall two-thirds of the men declared themselves in the ranks of workers, with one in every four actively supporting the war effort, now only one in every four is so employed, approximately but 27 per cent employed.

adequate and steady supply of food at prices fair alike to producers and consumers. This is the consumer's best insurance against the problems of scarcity.

Something known as "average adjustment" is now being used to increase production of certain crops needed for the war, a part of the change-over from normal peacetime farming to all-out war production. The farmer is converting his fields to war production just as surely as the manufacturer turns his machines from automobiles to airplanes.

Production without adjustment would be wasteful waste at any time. In wartime it is criminal.

Probably Mrs. Average Housewife wouldn't be able to tell you what an Ever-Normal granary is—but she's enjoying the advantages of living under a farming system that provides for crop reserves. In recent years, lots of wheat, corn and other products have been stored against a time when crops might be smaller or demands greater. When drought once plagued corn production as much as 40 per cent below normal, most prices skyrocketed and consumers suffered hardship. But now with the Ever-Normal granary's stored reserves of more than 25 per cent of a normal year's crop, there is plenty of food to convert into metal, eggs, and dairy products.

"Crop Insurance" has a farmable sound, but it is a simple procedure that pays big dividends to the consumer as well as to the producer who meets the demands. It provides a safeguard for farmers in business years when crop yields are low, and it provides a safeguard for consumers when crop yields are high.

Research activities of the department are equally related to consumer interests. Sixty-five research "laboratories" have experiments constantly in progress.

They don't just develop cloth from milk and plastics from soybeans. They also determine methods of increasing production and increasing the quality of farm products.

Food is carefully analyzed by reports so that their vitamins and mineral content can be accurately given. Nutrition studies set up minimum food requirements, show how they may be met at the least cost, and what available foods may be substituted for those on the scarce list or when that way.

Stretching Food Purchases. These nutrition studies are of particular interest to the housewife. She is faced with the problem of providing her family with enough to eat to maintain health and efficiency. She must steer her food buying so that supplies may be used to the best advantage and at the same time provide the highest consumer satisfaction.

The individual buyer these days must think always of her purchases as they relate to those of the 24 million other American housewives. What the result would be if that total were multiplied by 24 million. Would it create new scarcity or make a scarce food unnecessary? Or would it have the effect of utilizing the foods that are available in abundance?

Marketing his produce is the final step in the farmer's program of supplying the American table.

Alarm over possible increased food costs has been evidenced by some housewives. The retail cost of a basket of foods, representing annual family purchases, amounted to \$405 in September, 1942, an increase of \$10 over the price of the same foods in the period from 1935-36, but the cost was still \$10 lower than in 1929.

Workmen's families today can buy a basket of specified food products for the smallest share of family income on record since 1913. In September, 1942, it required only 23 per cent of the family income. During the preceding five years the same food basket accounted for 27 per cent of the income. Average family income has been rising more rapidly than food prices during the last three years and during the first 10 months of 1942. Reasons include higher wage rates, more hours worked per week with overtime pay, and more persons employed.

This family averaging five persons this fall reached a wage level 57 per cent higher than the pre-war average for 1929-35.

The family averaging five persons this fall reached a wage level 57 per cent higher than the pre-war average for 1929-35.

THE STORY SO FAR: An orphan since the age of seven, Charlotte (Cherry) Marshbanks has been attending high school in San Francisco. She knows almost nothing about her father's life, but she is gradually coming to realize that she has no family. When she is twenty-two, Judge Marshbanks comes to her to reveal the secret of her birth.

CHAPTER VII
After lunch he begged them to leave the table disorder just as it was because he could not wait another moment to show his paintings.

"Yes, do you, do!" called Amy from her room, and her first gesture of friendliness to warm Cherry's heart that she could go to the room door and look in upon its pinkness and warmth and coziness as she explained: "I'm all wet and shivering!"

Trucks Now Rolling Over Alaskan Highway

U. S. troops and supplies are now rolling into Alaska over the Alaskan Highway (above), which was finished months ahead of schedule. The 1,000-mile road ends at Fairbanks. Photos above (right), a bulldozer knocking a trail through virgin forest; lower left, a "carry-all" pole the building trunks to a section of the highway; trucks being to gravel for surfacing; upper left, scenic view of the Alaskan as it winds through the Yukon. Circle: Brig. Gen. William Hoge and Maj. E. J. Stann, executive officer, discuss route at Whitehorse.

Drying Soldiers' Mail Saved From Sea

Recovered from the sea after the plane carrying it had crashed, the mail, destined for soldiers overseas, is shown as it was carefully dried and sorted at the New York army post office before being re-shipped. The army goes to a great deal of trouble to see that the boys get their mail regularly.

Treason Trial

Ernest Burger, German-born saboteur (top), testifies at the trial of friends and relatives of Herbert Haupt, convicted Nazi saboteur, in Chicago. Below: Pvt. William Leith, Cleveland marine, who was a surprise witness at the trial.

Children's Friend

Stellar Elizabeth Kenny, Australian nurse, who was awarded the President's magazine's annual medal for outstanding service to children, in recognition of her contribution to the treatment of infantile paralysis. Her method has had wide endorsement.

Unsung Heroes of Solomons Battle

U. S. navy pharmacists' mates, attached to the marines as corporals, are the unsung heroes of this war. Acting as stretcher bearers, and giving first aid to the sick and wounded, they are frequently under fire. This crew is bringing in a wounded marine through the sweltering heat and rains on Guadalcanal Island.

Captured in Battle With British Corvette

In a midnight Atlantic ocean battle the corvette Dianthus rammed and sank a U-boat which had been intercepting United Nations supply lines. After the U-boat was blown to the surface with depth charges the Dianthus rammed it four times. A number of German prisoners were picked up by the Dianthus, which rejoined her convoy in time to rescue survivors from a torpedoed merchant ship. Here are some of the U-boat prisoners disembarking from HMS Dianthus at a British port.

Defend Canal Zone

Army and navy commanders in charge of Panama canal defense are shown in an air inspection. Pilot in plane is Lt. Col. Gen. Frank Andrews, Caribbean defense commander. The co-pilot is Rear Adm. Clifford Van Fleet, commander of the 15th naval district.

At Haupt Trial

Mrs. Gerda Haupt, former fiancée of Herbert Haupt, convicted Nazi saboteur, is shown as she entered the federal court building in Chicago to testify in the treason trial of friends and relatives of the former Chicago youth. Her fiancée was charged with sheltering and aiding him in his plan against U. S. war plants.

Bridal Shower For Miss Anderson

Miss Audrey Anderson, of 20 Lincoln avenue, Clifton, was guest of honor at a surprise bridal shower given recently by Mrs. Isabelle R. Whitney, of 51 Franklin avenue. Miss Anderson will become the bride of Edwin Joseph A. Lehman, of the United States Naval Reserve, on Nov. 21 at the Reformed Church of Clifton at 520 p. m.

Shower guests were: Miss Daris Dwyer, of Bronx, N. Y.; Miss Marie Kummer, of Brooklyn; Mrs. Charles Meyer, of Palisades Park; Mrs. R. H. Anderson, Mrs. H. Montgomerie, Miss N. Montgomerie, Miss Adele Anderson, and Mrs. J. Lehman, of Clifton. Mrs. C. D. Janicson, Miss Jean Janicson, Mrs. S. G. Whitney, Mrs. Edith Whitney, of Hawthorne, and Miss Edith Hendricks, of Jersey City, and Miss Dorothy Oaks, of Brooklyn.

Miss Ann J. Barry To Wed Hawthorne

Mr. and Mrs. C. J. Walsh, Jr., announce the engagement of their

sister, Miss Ann J. Barry of 141 Harrison avenue to Emil Peter Kern, Jr., of 555 Fourth avenue, Hawthorne, son of the late Mrs. Dorothy Kern.

The engagement was announced at a dinner party given at the Padlock, Peapack, N. J. Those present were: Mr. and Mrs. C. J. Walsh, Jr., Mr. and Mrs. Edward Kern, Mr. and Mrs. F. Roth, Mr. and Mrs. T. Sullivan, Mr. and Mrs. A. Robertson, Miss Marie Benzano, Alfred Hines, Miss Helen Sherry, Roth, Emil Kern and Miss Ann Barry.

Miss Barry attended St. Luke's Grammar and High School, Hawthorne and is a graduate of Ridgewood Secretarial School, New York City.

Mr. Kern attended Wyckoff Grammar School and Pompton Lakes High School. He is now employed by Wright's Aeronautical Corporation, Paterson.

Miss H. Lutolf Bride of Sergeant Van Rossum

Cedar Cliff Methodist Church of Haledon was the scene of one of the season's prettiest weddings on Tuesday evening, Miss Helen Lutolf of Haledon, daughter of Mr.

Emil A. Lutolf, was united in marriage to Staff Sergeant Franz Van Rossum of Hawthorne. The church was beautifully decorated with flowers, bushes containing white chrysanthemums and gladioli. The altar was filled with palms and white chrysanthemums.

The bride wore a fitted ivory satin gown, made with a train, and her veil was of imported French tulle. She carried a bouquet of white chrysanthemums and bouvardia.

Her maid of honor, Miss Florence Harding, was attired in a gown of ice green satin and net. The bridesmaids, the Misses Jane Schaefflin and Wanda Holt wore blue and pink chiffon gowns. The attendants carried bouquets of mixed chrysanthemums and roses. The flower girl, Miss Barbara

Morel, a cousin of the bride, wore a long pink dress and carried a colonial bouquet.

The ushers were Stanley Humphries and Peter Kiskinn.

The members of the bride and groom were both attired in blue dresses and wore loose yellow orchids. The bride was given in marriage by her brother, Edwin.

The bride is a graduate of Haledon Grammar School, Central High School, and Shereed Secretarial School of Paterson. She has been an active member of the Paterson Council of Christian Youth, Wesleyan Service Guild and the Youth Fellowship of Cedar Cliff Church. She is employed by the Ardy Corporation.

and by nineteen was ready for his concert debut. His pianistic career has taken him the length and breadth of Europe as well as North Africa and South America. He came to the United States for the first time in 1935, and made his American debut with the New York Philharmonic in the Mozart D major "Concerto" Concerto to Arturo Toscanini, in the audience that day, was so impressed by his playing that he immediately engaged Casadesu for appearances with him. His next American concert was the following year, with the Philharmonic under "The Maestro". Since his appearance with that orchestra have become an annual event.

The bride is a graduate of Haledon Grammar School, Central High School, and Shereed Secretarial School of Paterson. She has been an active member of the Paterson Council of Christian Youth, Wesleyan Service Guild and the Youth Fellowship of Cedar Cliff Church. She is employed by the Ardy Corporation.

North American output. "A happy family idea has been developed by men of all branches of the service," he adds. "Differences are being forgotten in the common effort to win this war."

"It is an odd thing to some, but that liberty parties should go to town arm in arm and return the same way—without any fights or other trouble."

Inter-service dances are models of orderliness, according to the Leatherneck correspondent. The Army band plays for Navy and Marine Corps functions, the outfit's newspaper is published by soldiers with contributions from sailors, coast guardsmen and Marines and it is read by everyone.

"Movies are shared generously by all servicemen," writes Lt. Carpenter, "and officers and enlisted men fraternize with others in a very democratic manner. Feuding, bickering and quarreling are things of the past in Alaska."

Mr. Nelson's report said four-engine bombers rolled off assembly lines very nearly on schedule. The output of heavy aircraft showed a marked increase over August, with the output of light trainer-type planes held below August. Some new plants which came into production recently made a much better than anticipated showing. Propeller production contained a major problem, although propellers have been made thus far to fit all planes.

While merchant ship production was 10 percent above August, actual tonnage delivered was 24 percent above August — 1,000,000 deadweight tons compared with

1,000,000 tons in August. This amounted to 40 percent of 200,000 tons.

Minor, the pioneer women who made Thanksgiving Day possible by buying War Bonds to safeguard America.

Hilda DeYoung, daughter of Mr. and Mrs. P. DeYoung, 325 Bea Avenue, has recently been elected vice-president of the class at Moody Bible Institute, Chicago.

DEFENSE FACTS

Released by National Defense Committee
Of the New Jersey Press Association

War Production Chairman Nelson reported overall munitions production in September was 12 percent above first of the month forecasts and approached closely the total production of merchant shipyards last year. During the month, 12 major combat vessels were launched, the report stated. Deliveries of major vessels were greater than forecast, but deliveries of other types were behind expectations.

The Treasury gold out \$5,500 million for war purposes, an increase of \$200 million over August. This amounted to 40 percent of 200,000 tons.

SPOTLIGHT ON BUDGETS

With budget making time in the offing, interested citizens can prepare for another hard winter's struggle with an unfathomable maze of State Government budget figures, which give no reason for increasing costs of governmental operations, but which almost always add up to higher costs for the taxpayer.

Comprising a complicated mass of figures divided into nearly 200 accounts covering peace, this document is handy for starting the fire on a roll January morning, but is not very helpful in informing the public as to spending trends. Comparisons of costs are restricted to a one year period.

With the exception of the corn, but not always successful efforts of newspapers to furnish a clear story of a complicated mass of State budget dollar juggling, the general public is left pretty much in the dark on what it has to pay, to his tax money at the State House. The State, in its budget reports, provides no understandable picture of trends in spending, where additional tax dollars are being allocated, where departments are spending more money, or where savings could be made through reduction or elimination of services.

However, if you can be a fifteen or even twenty percent one.

Mr. Nelson's report said four-engine bombers rolled off assembly lines very nearly on schedule. The output of heavy aircraft showed a marked increase over August, with the output of light trainer-type planes held below August. Some new plants which came into production recently made a much better than anticipated showing. Propeller production contained a major problem, although propellers have been made thus far to fit all planes.

While merchant ship production was 10 percent above August, actual tonnage delivered was 24 percent above August — 1,000,000 deadweight tons compared with

1,000,000 tons in August. This amounted to 40 percent of 200,000 tons.

Minor, the pioneer women who made Thanksgiving Day possible by buying War Bonds to safeguard America.

Hilda DeYoung, daughter of Mr. and Mrs. P. DeYoung, 325 Bea Avenue, has recently been elected vice-president of the class at Moody Bible Institute, Chicago.

Miss DeYoung is enrolled in the Home Missions Course and is looking forward to missionary work after graduating from the Institute.

Editorial Comments

AN "E" FOR INEFFICIENCY

An article in the December Reader's Digest recommends for Washington, D. C., on "E" for inefficiency. The article says that in wartime maneuver and low morale, no war plant anywhere surpasses Washington, the biggest war plant of them all. Supporting the charge, the article cites data submitted to Congress by the Civil Service Commission, and President Roosevelt's famous observation that the nation's war spirit is everywhere excellent, save in the capital.

The reason, according to the Digest, is enforced idleness, reaching epidemic proportions among government employees. A high officer at the War Department is quoted as saying that between a third and a half of the employees now in Washington could be eliminated, and the job done better. In some bureaus, understaffed clerks put in 12 hours a day, seven days a week. Elsewhere, thousands sit, sometimes for months, with nothing to do but collect their pay checks. Many spend their days in "pools" of idle workers.

waiting for assignments, and while away the time doing crossword puzzles. The Digest article says that almost unanimously they dislike it, having journeyed to Washington to take part in an all-out war effort, but their complaints get them nowhere.

Bureaucracy is indicated as the guilty virus of the epidemic. The Digest article tells of an executive of the Board of Economic Warfare. He previously had presided over a Department of Agriculture office where "mad work" was traditional, to keep the clerks busy. He determined that his set up at BEW would be compact and efficient. Government "personnel experts" bluntly told him he couldn't do it because it "wouldn't conform to the organization charts of similar government offices." After weeks of conferences he had to take 40 per cent more employees and 35 per cent greater budget than he had planned.

The Digest article says low morale among government workers is the inevitable result. In the Red Cross War Relief Drive, Washington made the worst record of any large city in the country and was rebuked for it by the President. In the scrap rubber drive, Washington was more than 50 per cent below the national average. An bond buying by government workers, including the employees of the White House, has been below par.

For all this, the Digest article nominates Washington for an "E" for Inefficiency.

Mrs. Leland McCann

Entertains Guild

Mrs. Leland McCann, of 141 Farmdale avenue, opened her home to the Mary and Martha Guild of Thursday after an all-day meeting. The morning hours were devoted to the making of gaiter bandages for the White Cross. Mrs. McCann, White Cross chairman, was in charge.

At noon time the ladies enjoyed box lunches. Cake and beverages were served by the hostess.

The monthly business session was conducted during the afternoon with President Mrs. Thomas H. Kelly, presiding.

Mrs. Kelly also had charge of the devotionary service.

In place of the next meeting on Dec. 17, the ladies will attend a meeting at the Guild at the Broadway Baptist Church, featuring a missionary speaker. Those attending are to meet at the corner of Broadway and Bridge street at 1:30 p. m.

Plans have been completed for a Christmas party at the home of Mrs. E. Klepper, on Bamford avenue. The unknown friends will be revealed at this time, and members are to bring inexpensive tokens.

The Mary and Martha Guild has received an invitation to a birthday social to be sponsored by the queen Esther Chapter, World-Wide Guild, at the local Baptist Church on Dec. 10.

The women are making an attempt to raise a fund for the purchase of a new sewing machine for the Guild. The Guild is about seven months from the station. Buy 70 from Newark's shops at the doors.

WASHINGTON NEWS
 HOW ABOUT THE PARKING VACATION?
 By J. E. Jones
 The United States was young when the new National Capital became a clearing house for plans,

THURSDAY, NOVEMBER 26, 1942

ideas, ideals and progress. The "Columbian Agricultural Society for the Promotion of Domestic and Rural Economy" was organized. It offered premiums to farmers, and the "Fair" it held in 1910 stirred up a lot of interest.

An "Agricultural Fair and Cattle Show" was held at Pleasant, Massachusetts, the following year. It was not many years later when every State and Territory in the Union had county fairs. The State Fair became a keystone to the arch.

Fairs were daddies and mothers to Farm Institutes and to County Agents. And fairs are granddads and grandmas to thousands of 4-H Clubs all over the nation.

Next to the Declaration of Independence the Fair is a symbol of liberty, all because most people were farmers in early days. George A. Hamid, editor of Fair Times and President of the State Fair of New Jersey, has been offering a strong defense for our ancient heritage, The Fair!

Dedicate yourself anew to victory Thanksgiving Day by increasing your War Bond buying.

2. Amount of coffee on hand when they register during Sept. and Oct. 1942.

3. The names and addresses of all persons from whom they purchase coffee during Sept. and Oct. 1942, and the quantity purchased - from whom.

Consumers who have no sugar book, because of excess inventory or because of exemption for War Ration Book One to rationing boards. The board will determine whether or not to place the book. When such applicants become eligible for sugar, they will be required to purchase one to exchange the rationed book for one which contains "allow" for both sugar and coffee.

State OPA headquarters advised that the passenger car and motorcycle use of rationing stamps will continue to be based on the number of registered automobiles, that another registration stamp will be required for the motorcycle. The motorcycle will be treated as a passenger car and will be given the same level as "one of three or more passenger cars or motorcycles." The motorcycle will be interpreted by the same person or

Kerne, emphasized that institutional users are the only class of coffee user required to register. Consumers, and retailers, and

Wholesalers will not be required to do so. Consumers will simply use stamp number 27 in their sugar ration books to purchase a pound of roasted coffee between Nov. 29, 1942 and January 3, 1943. It was emphasized that only consumers 5 years of age and over will be entitled to a coffee ration.

Wholesalers and retailers will determine their own allowable inventory by a method established by the War Relocation Authority (WRA). They will be required to report their use of this method to local rationing boards.

Wholesale and retail stocks of coffee will be built-up chiefly during the winter months.

average fuel oil consumer who heats his home and who filled his 100-unit consumption of fuel oil or kerosene for heating purposes, and finally define a gallon for the purchase of five gallons each, and twenty-five for the rest of the season he is entitled to. A sheet of this class consists of 100 units, each group valued at the price of the five heating units of the year. Each group is valued at the price of the five heating units of the period during which it is valued. For example, those coupons good for the first five heating units of December 16, are marked "Period 1."

The ration of each householder, based on the five heating units on the basis of 10 gallons for each one-unit coupon, making each one-unit coupon equivalent to 10 gallons, however, the OPA has officially answered the 10-gallon value question by marking the coupons "Period 1." The value of the coupons for the next four periods will depend upon the available supplies of fuel oil, including kerosene.

Rationing officials emphasized that the consumer must not detach the coupons from the sheet.

the campaign. But it is further pointed out that the saving of fuel is not only patriotic; it's just good common sense to save fuel and money. And the very best investment of the money saved is the purchase of War Bonds and Stamps.

The aim of the program is to instruct the public in various fuel

Richard Karl Schmidt of thorne, N. J. has been appointed Marine Gunner with the United States Marine Corps. In the line three years and five months Marine Gunner Schmidt was platoon sergeant on duty with Fleet Marine Force. His wife Mrs. Eoryl S. Schmidt, 173 E.

SAVE THE RIGHT THINGS!

So is conservation of EYES!
Good eyes are a precious asset in this war. They provide the sight necessary for doing work efficiently—and that is important, because everything counts in total war.
Protect eyes—with GOOD LIGHT. Make this protection effective by maintaining good lighting in your home where you read, write and do other close work.
