ECONOMIC HIGHLIGHTS

The volume of the country's output of goods and services is expected to increase in 1934, according to a report by the Federal Reserve Board. The board's report, based on the index of industrial production, shows that the output of goods and services in the United States increased 1.5 percent in 1933 over 1932. The board expects a similar increase in 1934.

The board's report also shows that the output of goods and services in the United States is expected to increase in 1934 over 1933. The board expects a similar increase in 1934 over 1933.

Editorial

We Must Set An Example
Inevitably the finger will be pointed at the Local Union, S. J. and the members of the Executive Committee. We must set an example for the other unions in the area. We must show that we are not only willing to fight for our own interests but also for the interests of the community as a whole. We must show that we are not only willing to fight for our own interests but also for the interests of the community as a whole.

In other words, we must be more than just a local union. We must be a part of the community. We must be a part of the community. We must be a part of the community. We must be a part of the community. We must be a part of the community.

TO GIVE THANKS...

... is an American Heritage
From Our Pastors' Fervent
Prayers

There are few things more American than the Thanksgiving dinner. It is a time when we pause to give thanks for the many blessings that have been bestowed upon us. It is a time when we reflect on the many ways in which we have been blessed by our God and our fellow men.

Price Control No Answer

The answer to the problem of the rising price of food is not price control. It is to increase production and to reduce waste. It is to encourage the farmer to produce more and to encourage the consumer to waste less.
