Voting numbers and public interest on the decline

The number of registered voters in this city is said to be the lowest it has been in many years. The percentage of registered voters who actually cast their ballots for the candidates is also on the decline. In the last election, only about 50% of the registered voters cast their ballots. This is a significant decrease from the previous election when the percentage was over 60%. The decline in voter turnout is a concern as it indicates a lack of interest in the political process. It is important for citizens to participate in the democratic process to ensure that their voices are heard and their interests are represented. It is our duty as citizens to vote and make our voices heard. We must all work together to increase voter turnout and ensure that our democracy thrives.

Letters

Post Office service in Hawthorne is in a sorry state

We are writing to express our concern about the state of Post Office service in Hawthorne. The delivery of mail has been consistently delayed, and the quality of service has significantly declined. We have reached out to the Post Office on multiple occasions to address these issues, but our concerns have not been adequately addressed. We urge the Post Office to take immediate action to improve the service and ensure that mail is delivered on time. We hope that this issue will be resolved soon.

Commemoration for the Judge

We are writing to express our appreciation for the dedication of Judge Smith in serving our community. Judge Smith has been a tireless advocate for justice and equality, and his work has been instrumental in ensuring that our citizens are treated fairly and justly. We are grateful for his service and the positive impact he has made on our community.

Night football - an idea whose time has passed

High school football is a tradition that is being pried from our hands. The reason is purely and simply economics. In the 1960's, when football was king, there was a demand for the sport; but with the current climate in our country, the demand has changed, and with it has changed the ability of teams to keep their programs alive. As a result, the frequency of high school football games has been reduced. This is a trend that is likely to continue, and it is a trend that is not without its ramifications. The loss of high school football games is a loss of tradition and a loss of opportunity for young people to participate in a sport that is both physically and mentally challenging. However, in the face of this trend, there is a need for us to consider the future of high school football. We must ask ourselves: what can we do to ensure that this tradition continues and that young people have the opportunity to participate in this great sport?

comment

Nola is dead...

As we prepare to bid farewell to the year, it is fitting to reflect on the many changes that have taken place in our community. One of the most significant changes is the passing of an old member of our community. Nola, a long-time resident, has passed away, leaving behind a legacy of love and dedication. Her contributions to our community cannot be overstated. She was a pillar of strength, a source of comfort, and a friend to all. Her memory will live on, and her legacy will be a source of inspiration for generations to come. We extend our condolences to her family and friends and offer our support during this difficult time.

ups and downs

Thumbs Up

1. The recent renovation of the local park has created a beautiful, inviting space for residents to enjoy.
2. The community has come together to support a local business that was struggling.

Thumbs Down

1. The recent increase in property taxes has put a strain on many families.
2. The lack of public transportation options has made it challenging for some residents to commute.

letters

Concentrate on 18-year-old voters

The recent election has shown that young voters are a force to be reckoned with. In order to win future elections, candidates must focus on this group. This includes understanding their concerns and addressing their needs. By concentrating on 18-year-old voters, candidates can build a strong base of support and ensure their future success.

Assemblyman John Girgenti to address HHS seniors

Assemblyman John Girgenti will be speaking to our high school seniors. This is an opportunity for them to learn more about the legislative process and the role that they can play in it. The assemblyman will be discussing the importance of voter participation and the need for young people to be engaged in the political process. He will also be answering any questions that the students may have.

Hawthorne High Happenings

The recent football game was a success. The team worked hard and showed great sportsmanship. The community came together to support the team and enjoy a great game.

Check presented to Lori Denise

Lori Denise received a check for $500 from the local business association. This money will be used to support community programs and initiatives.

Thanks

to all the voters who supported me in my campaign for re-election.

Action delayed on amusement machine law
editorial

Amusement machine ordinance needs revision

The city of Hawthorne has revised its amusement machine ordinance to make it easier for police officers to enforce. The new ordinance is more specific and clearer than the old one. It includes provisions for the licensing of amusement machines and the regulation of the hours during which they may be operated. The ordinance also sets a cap on the number of amusement machines that can be installed in a single location. The city hopes that the new ordinance will help to reduce the number of illegal gambling devices in the city. The city also hopes that the new ordinance will help to reduce the number of crimes that are associated with amusement machines, such as theft and vandalism.

editorial

Amusement machine ordinance needs revision

The News recently reported on the problems caused by the curfew placed on certain forms of amusement machines. These machines are all too often the source of trouble, being used by those who should not be using them. The machines are a terrible distraction for children, and it is time the city took action to control them. A curfew would be a good start.

comment

Let's not spare the rod

In recent years, there has been a trend towards leniency in law enforcement. This is not the way to go. The rod must still be wielded, and the world must be a hard place for those who have no respect for it.

ups and downs
