

**OCTOBER**

## Firemen Receive Letter Of Appreciation From Home Owner

The Board of Fire Commissioners at their regular meeting at Lewisville Hall with Chief Fred Haszcamp presiding, received the following letter of appreciation from Mr. and Mrs. Peter E. Nolan of 68 Florence avenue praising the work of the local firemen.

"I wish to take this opportunity of thanking you for the very fine cooperation displayed by you during the recent fire which occurred at my home. The actions of the firemen were so commendable that I could not forget sending you a note of thanks and I hope you will convey my appreciation to the men involved. If at any time in the future I am in a position to be of service to your board you may be sure you can call upon me."

The exempt status of some of the men and the present requirements of the Newark office were one of the subjects of discussion. Chief Haszcamp urged that real estate cooperate in preventing brush fires. "Because of the shortage of men in the department it has been necessary to have all companies respond to calls," he stated, "and this keeps all four engines out even in the smallest brush fires." He went on to explain the cost this involves and reminded that it is against the borough ordinance to start fires without a permit unless confined in a metal container.

Public Safety Director Louis Ray, II, was in attendance and the following members of the board were present: Chief Fred Haszcamp, Assistant Chief Harry Law, John Vespa, Louis Ray, and Frank Vernon, and Clerk Edward de Jager.

The next meeting of the board will be held on Monday evening, Nov. 6 at 8 o'clock at the headquarters of Fire Company No. 3 on North Eighth street instead of at Lewisville Hall on Nov. 7 as originally scheduled because of the election.

## Gets Corporal's Stripes

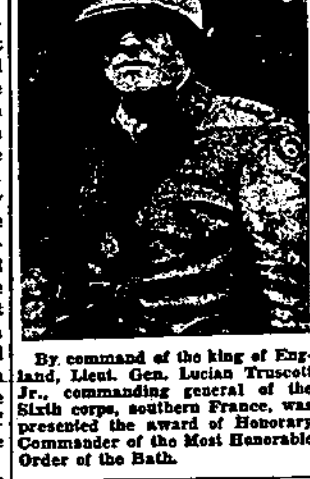

Corp. Frank Patroci of 304 Central avenue, fighting somewhere in Belgium, has received a promotion from private, first class, to the rank of Corporal.

Corporal Patroci was with one of the first tanks to ride through France. He thinks the French girls are about tops.

## Honors U. S. General

By command of the War of 1812, Gen. Lucian Truscott, commanding general of the Sixth Corps, southern France, was presented with the Most Honorable Order of the Bath.

## Playmakers Meet In Glen Rock Home

The regular monthly business meeting of the Playmakers was held on Tuesday evening at the home of Mr. and Mrs. Rudolph De Socarras, 174 Boulevard, Glen Rock, with president, Pat Ferro, presiding.

After the business session a rehearsal of "Suppressed Desires" a one-act play was held under the direction of Mrs. Mildred Merchant, after which refreshments were served by Mr. and Mrs. Jack Desurans.

President Ferro appointed Grace Komajin, Viola Smith and Dorothy Desurans as a play committee for the year. This committee will work with the director Mrs. Merchant and assistant director Anita Kay.

The membership committee appointed for the year, consists of the following members: J. H. Simon, Gordon Smith, Marion Winters, Marcel Smart, Jack Desurans, Shirley Vroman, Darlene Smith, Caroline Ferre and Bill Merchant.

## Legion Women Meet, Plan Social On 18th

Plans for the fall and winter program occupied the members of Hawthorne Post No. 189 American Legion Auxiliary, at a regular meeting in the post rooms recently. President, Mrs. Robert Webster, presided.

A social was planned for Oct. 18 and business for that evening will be Mrs. George Bush and Mrs. David Blawell.

**ENDS FURLOUGH**

Corp. Clarence M. Berry, Jr. son of Mr. and Mrs. C. M. Berry of 40 Warren Avenue, has completed a 14-day furlough.

His address is as follows: Campsite Clarence M. Berry, Jr. 12226-265, Company E, 71st Infantry, O.C.R., Fort Belvoir, Virginia.

## Merchant Asked By Health Board To Call For Cards

At the regular meeting of the Hawthorne Board of Health at Lafayette School with President Howard Haines presiding, Reporting Officer George Oelshner announced that all food and drink merchants must call for health cards to comply with the Board of Health regulations.

In reporting on contagious diseases, he listed two cases of mumps, one of chicken pox and one of tuberculosis for the month of September. There was also one case of dog bite with the usual ten-day quarantine period ordered.

Dr. T. J. E. Helms, health officer, reported that one vaccination, two tetoid injections and five combined tetoid and pertussis injections were given at the clinic at Lafayette School during the month.

Clerk Edward P. Keefe reported receipts of \$12 for four food permits, \$250 for a milk license, and \$120 for three food licenses, and \$500 for private treatment, making a total of \$1121 for the month. He also stated that a total of 222 food handlers' cards had been given out to date.

Plumbing Inspector Jerry McPherson announced receipts of \$5 for plumbing permits, \$250 for sewer permits and \$10 for oil burner permits, making a total of \$170.

## Ruth Statham Gets Nurses' Cap

Among the pre-graduate student nurses who received their caps at an impressive ceremony, held at Memorial Hospital, Winchester, Va. Friday night, was Cadet Ruth Statham, daughter of Thomas G. Statham, of 173 South avenue.

These exercises signified that the student nurses have satisfactorily completed the six months preliminary period of their training as United States Cadet Nurses. Miss Statham returns to Winchester Va. after a few days' leave at home, to resume further training.

## Legion Women Meet, Plan Social On 18th

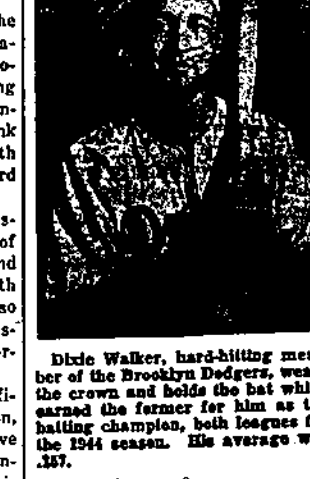

Plans for the fall and winter program occupied the members of Hawthorne Post No. 189 American Legion Auxiliary, at a regular meeting in the post rooms recently. President, Mrs. Robert Webster, presided.

A social was planned for Oct. 18 and business for that evening will be Mrs. George Bush and Mrs. David Blawell.

## Won Batting Crown

Bobbi Walker, long-batting member of the Brooklyn Dodgers, wears the crown and holds the bat which earned the former for him as the 1944 season. His average was .337.

## School Faculty Has Dinner Party

The faculty of Roosevelt School enjoyed a pleasant dinner party Thursday evening at Meyer's Restaurant in Killebrew.

The guests of honor were Mrs. Lillian Pirozzi, Mrs. Betty Merriam, Mrs. Catherine Brown, Mrs. Ava Dystra and Miss Mary Meagher.

Each was presented with a chrysanthemum corsage.

In addition to the guests of honor those present were: Miss Elizabeth Terhese, Miss Ethel Gilman, Miss Alice Duryea, Miss Ruth Moore, Miss Olive Bell, Miss Vera Zabriskie, Miss Anita Boel, Miss Irene Courtright, Miss Edith Terrell, Mrs. Aletta Sherwood, Miss Wilma Verdoin, Mrs. Ann Jasper and Miss Alida Vandenberg.

Those unable to attend were: Miss Betty Shaw, Miss Artemesia Bush, Mrs. Geraldine Ross and Mrs. Emma Jacob.

Later the group spent an enjoyable evening at the home of Miss Elizabeth Terhese.

## Food Conservation Program At School

A program featuring a number of skits and speeches on "How to Help Conserve Food" was given by the eighth grade pupils of Roosevelt School.

Suggestions highlighted were "Drink Your Milk to the Last Drop", "Learn to Eat New Foods", "Take No More Than You Can Eat" and "Do Not Waste Any Thing."

One impressive illustration was given by Connie Roughgarden and Betty Vandenberg, who, acting as nurses, just returned from the war zone, told how saving food helps the armed forces.

The students were urged to remember the thought, "Food Fights for Freedom."

## Vincent McGrath Wins Navy Medal For Gallantry

Vincent A. McGrath, aviation cadet, first class, United States Naval Reserve, son of Mr. and Mrs. George P. McGrath of 411 Dixie avenue, has been awarded the Silver Star Medal for conspicuous gallantry in action in the invasion of the Marianas.

The citation, which explains the circumstances under which the honor was won, follows:

"In the name of the President of the United States, the Commander, First Carrier Task Force United States Pacific Fleet, presents the Silver Star Medal to Vincent A. McGrath, aviation cadet, first class, United States Naval Reserve, for service set forth in the following:

"For distinguishing himself conspicuously by gallantry and intrepidity in the face of considerable danger to himself. On June 20, 1944, during the invasion of the Marianas, he participated in the attack on the enemy fleet as the radioman in a torpedo bomber in the face of intense anti-aircraft fire and fighter opposition. He coolly took photographs of the direct hit scored on a battleship and his coolness and presence of mind later, after a forced water landing at night, was responsible for the saving of the life of his pilot. His skill and courage in this action were in keeping with the highest traditions of the United States Naval Service."

**—M. A. HITSCHER,**  
"Vice Admiral U. S. Navy"

Party Officer McGrath is well known in Hawthorne and surrounding communities as a member of the McGrath family orchestra.

His brother, Staff Sgt. George T. McGrath, has been home on a furlough after spending 38 months in the Aleutian Islands and has just been granted one week additional furlough. George entered service Jan. 6, 1941, and this has been his first leave in three years. He will return to Camp Swift, Texas on Oct. 10.

The third McGrath boy in service, Private First Class James McGrath, was killed in action recently in France in the territory in which his father fought in World War No. 1.

## BIRTHDAY PARTY FOR MRS. NELSON

A birthday party was held at the home of Mrs. William Champ of "Drift Your Milk to the Last Drop", "Learn to Eat New Foods", "Take No More Than You Can Eat" and "Do Not Waste Any Thing."

The guest of honor received many lovely gifts. At a late hour supper was served.

You can make sure that your estate will be a real benefit to your heirs. The Citizens Trust Co., 140 Market street, Paterson, will help you in this.

# Society... News and Events

## Rosary Society Plans Reception

St. Anthony's Rosary Society held an interesting and well-attended meeting in the social hall on Tuesday evening, Oct. 10, at 8 o'clock. This will be followed by a social hour and all those who joined the society during the past two years are asked to keep this date in mind and be present at the reception if possible.

On Tuesday morning, Nov. 5, Communion will be offered for deceased members and all Rosarians are asked to turn out in a body at the 8:30 o'clock mass.

A nominating committee consisting of Mrs. William Doster, chairman; Mrs. E. Sinsch, and Mrs. Frank Stewart, was selected at Tuesday's meeting and will report to the members at the November meeting.

Plans were completed for the monthly social which will be sponsored at the social hall on Wednesday afternoon, Oct. 18 in the form of a dessert bridge at 1:30 o'clock. Mrs. A. Galini will serve as chairman, assisted by Mrs. J. Liddy, Mrs. M. Schwartz, Mrs. Peter Doherty, Mrs. J. Norman, Mrs. C. Bannan and Mrs. Florence Lindsay.

Following the business session the meeting was turned over to the hospitably chairman Mrs. M. Marshall, who was assisted by Mrs. William Greife and Mrs. Thomas Irving.

## Halloween Social Planned by League

The Hawthorne Methodist Fellowship League has completed preliminary plans for a Halloween social to be held at the church on Thursday evening, Oct. 13.

Mr. and Mrs. Garret Westerhoff will serve as chairman, assisted by Mr. and Mrs. E. Clark, co-chairmen and the following committee: Entertainment, Mr. and Mrs. Sidney Sargent; decorations, Mrs. Paul Behrman, assisted by Mrs. Eliza and Miss Anne Adams.

Refreshments, Mrs. James Wood, Mr. and Mrs. G. Westerhoff, E. Warner, Berrie Kitchin, Mr. and Mrs. E. Latta, Mr. and Mrs. W. B. Sprock and Paul Behrman.

Publicity, Mrs. E. Kitchin, Mrs. Ell Klingsworth, and the Mrs. Paul Spickler.

Plans for the annual roast beef dinner were also discussed at the recent meeting. The dinner will be held at the church on Thursday, Nov. 16 with Mr. and Mrs. Garret Westerhoff serving as chairman. Committee announcement will be made at a later date.

Mrs. Ray Glass, chairman of the calendar committee, has announced that the money and names for the calendar must be in by Oct. 20. Cards for the names may be obtained from her.

The members enjoyed a social evening and get-together following their regular meeting Thursday and refreshments were served at a late hour.

## Freedom Has Many Blessings

The United Nations are fighting for freedom for many different reasons. One of the most unique reasons was brought out by one of our smaller allies, the Nagas of Assam and North Burma. Known as headhunters, it took something concrete to sway them to our side.

With these people hostile to us, our efforts in Burma would have been less effective. The American medical profession played a great part in helping with the confidence of the Nagas by just doing its job of caring for the sick and wounded.

The Nagas were afflicted with fever which ate to the bone and were considered incurable by those tough little people. The American doctors went about treating this common sore with sulfadiazine and in a short time the sores disappeared miraculously. Their King Peter was cured of blindness thru the removal of cataracts in both eyes.

It didn't take any more to convince this ally that our cause was for their good. The Nagas played an important part in helping push the Lolo Road through to completion.

This is another victory for the American doctor: who works and achieves under a free enterprise system, which is the backbone of our country.

## Above the HULLABALOO By LITTLE HULL

### The Magnificent Legion

The United States army wants more WAC's—thousands more. The medical services need 22,000. The air corps 20,000. Army ground forces 70 and other service branches 10,000. Forty-eight thousand additional women to fill essential jobs in the rear areas, and the army will help carry all of the load.

When men were scarce, the army created the "Women's Army Corps." Powers That Be must have realized how useless he would be without a good hand to guide him out of the trouble he was sure to create in himself. In their limited wisdom, they could not see the magnitude of the need of women in war and women's peace time. The magnitude of the history and their glowing reputation as the women of the G.I.s.

Today's story will add new pages written in letters of gold and death in the fields of battle at this very moment. In Europe, women are working in the SPAs; the medical and the WAC's—but let us not forget the WAC's in the rear areas. It is in the rear areas that the women are doing the most important work.

There are more WAC's needed just now in the European area than in any other part of the world. The answer is simple: there are more men in Europe in the front lines than in any other part of the world. The answer is simple: there are more men in Europe in the front lines than in any other part of the world.

**BUY NOW WAR BONDS**

## Triana Better Dressed

If the Nagas people knew about the plans in this country to assist medicine and destroy our American doctors they would think we were very stupid indeed.

## Clay's Restrictions Eased

LONDON—For two years after the war started and rigorous rationing of clothing, as of all other necessities, including food, was enforced, well-dressed Britons, patriotically making the best of it, dressed shabbily and even shoddy.

Now that of the old quality which made the product of British mills world famous is once more being made available to dealers, supply is more than enough to keep up with the requirements of the uniformed forces of the Allies.

The result is that the public is having better quality clothes to wear in a short time than there is a shot of cheap clothes.

## Garden Club Enjoys Day At North Millford

The Women of the Hawthorne Garden Club enjoyed a most pleasant day at the estate of H. H. Rodgers in North Millford recently.

They left from the home of Mrs.

A Long Distance call is almost as good as being there in person. Helps a lot when there aren't too many other calls on the wires.

So whenever you can, please keep the circuits clear from 7 to 10 each night for service men and women.

**NEW JERSEY BELL TELEPHONE COMPANY**

## Authorities Urge Measures To Reduce Goiter Incidence

Detailed steps to cut down the incidence of goiter in certain sections of the country such as the upper Mississippi valley and the Great Lakes district, where it has been especially high, have been advocated by medical authorities.

Some authorities advise adding 10 milligrams of potassium iodide to each kilogram of ordinary table salt. A prepared salt of this type is sold commercially. Others maintain it is better to eat chocolates containing from 5 to 10 milligrams of iodine each a week, or to take one to two ounces of syrup of hydriodic acid, in two doses, during the year.

It is especially important to take preventive measures with children and pregnant women. Maxine D. Baker, the chief of the section of the U.S. Public Health Service, which is in charge of the goiter problem, says that the best way to keep the incidence of goiter down is to eat iodine-rich foods, such as sea food, or to take a small amount of iodine tablets.

To avoid as much discomfort as possible, Miss Davis says that persons who believe they are suffering from goiter should consult a physician.

## Alutians Come Up With Dust Storms

Old-Timers Admit They Have Seen Everything.

AN ADVANCED ALUTIAN BASE.—The old-timers around here used to complain about everything in the westerner's book—wind, snow, ice, rain and fog. But when the Alutians came up with dust storms the old-timers thought they had more than enough.

What we've had along the island chain in the way of dust storms would make the old-timers from the Oklahoma dust bowl feel right at home. There was enough dust to fill the air in the 24 hours a day to build a new island chain. The army engineers have been engaged for two years here in one of the largest dust-storm operations ever carried out anywhere, but the recent Williwaws are showing them some new tricks.

The engineers took the tough island and set off and moved mountains to make room for military installations, and with the aid of the wind and volcanic ash exposed, the wild Alutian wind started in where the engineers quit. The troops here, finding sand in their food, their beds, their equipment and their clothes, have come up with a new theory as to how these dust-battered islands originally were formed.

They are convinced now that they blew in from Siberia. Some of these bases, among the most powerful in the Pacific, unquestionably will be maintained in strength in peacetime, and already "old-timers" are realizing that unless the dust problem is licked they will not be popular residents. They see "wonderful" what sort of vegetation can be planted to bind the soil and prevent it from blowing.

"It's just now," said a transport pilot, "that the wind after Japan falls up, they'll get the 'wonderful' fog in, and that's just what we'll have before we get the dust and fog."

## Odd Gadget Aids Blackout Study

Centrifuge Gives Data on Loss of Perception in Violent Air Dives.

WRIGHT FIELD, OHIO.—Using an ingenious machine called a centrifuge, the aeromedical laboratory of the Army material command, here, has long been studying "blackout"—the temporary loss of perception by pilots during violent flight maneuvers.

The centrifuge resembles a large, two-arm merry-go-round with a mannequin case or cockpit at the end of each arm. It is spun by a high-speed electric motor, in the center of the revolving structure is a seat for an observer.

The test subject—always a volunteer—sits in one of the seats. The centrifuge is started, the cockpit observer sits facing him. When the centrifuge is started, the cockpit observer sits facing him. When the centrifuge is started, the cockpit observer sits facing him.

It has been learned that blackout in flight is caused by the stoppage of blood circulation in the brain, the result of centrifugal force which multiplies the force of gravity or "G's." The normal weight of any body is one "G." Under centrifugal force the body is subject to a number of "G's."

An inside loop, or even just pulling out of a dive, adds what is called "positive acceleration" or plus G to the gravity load on the body. This causes blood pressure to fall in the brain and the pilot blacks out. As a result the pilot sees "gray" or "black" and then blacks out completely. He does not necessarily lose consciousness until he blacks out. It is a strong enough and lasts long enough to cause a pilot to lose control of his plane.

Even just pushing down into a dive, gives the opposite effect, "negative acceleration" or minus G. In this maneuver blood is forced into the brain and vision goes "red."

## Service Reported Cut

On Two New Rail Lines

POPE JOHN'S—Service on two new rail lines in northern France, near the Belgian border, was reported to have been cut.

The lines are being built by the German High Command and are intended to serve the German army in the region.

## Most New Workers Women

Rise in Factory Employment Since April 1 Year Ago Is Shown.

WASHINGTON—Secretary Perkins reports that in a net addition of 1,100,000 to the working force in American factories from April 1943 to June this year, more than four-fifths were women.

"Big even more women must take their places on the assembly line as full and part-time employees filling the gaps caused by men entering the armed services," Miss Perkins asserted.

Also reporting the results of a survey of women in industry, the Department of Commerce stated that these new employees were proving the equal of the men whom they replaced, "with few exceptions."

Secretary Perkins, in reporting on the flow of women into war industries, said that the period from October, 1943, had seen an increase of 2,000,000 women in manufacturing industries as compared with an increase of 2,000,000 men. This brought the total number of women factory wage earners in June, 1944, to more than 4,500,000, or 39 per cent of all factory workers, she reported.

## The Road to Ruin

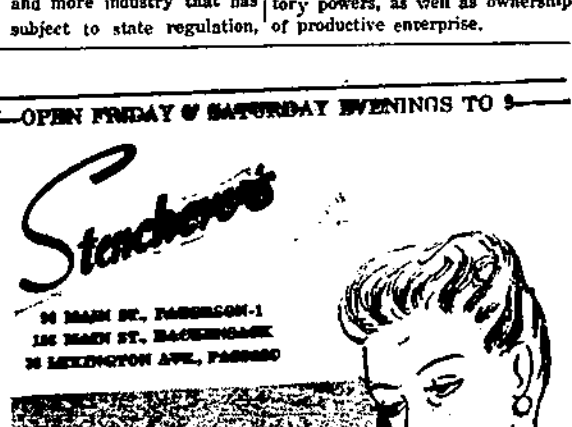

There must be more interest in helping small telephone companies improve their operating and financial status. Various states report that an increasing number of small companies are petitioning state commissions for permission to use cable exchanges because of insufficient revenues and management.

It is highly important that these small companies be kept in business to prevent their being any interruption in the telephone service. Quality for more than 59 years! These telephone services are typical of the many styles in our vast collection. They're velvet-soft, immensely comforting, simply marvelous to wear.
