**ECONOMIC HIGHLIGHTS**

**Social Security**

By W. S. SLOAN

The big Social Security boost has been received and is making its impact, even as the Congressmen are still pushing for higher benefits. The Social Security Administration has already processed over 2 million claims for the additional $200 per month, and more are coming in daily. This has resulted in a significant increase in postal traffic, as well as a surge in the number of people seeking to maximize their benefits.

**OUR LETTER BOX**

From: John Smith, 123 Main St, Anytown, USA

"I would like to thank you for the recent Social Security increase. It has made a significant difference in my retirement funds. Keep up the good work!"

...Editorial...

Gran Drabek

There is a term which has been in vogue in government policy and practice for quite some time now. It is government by the people, for the people, and with the people. Without doubt, the joy and pride of this young generation are the stakes of the government in our land. There is a tradition of the people, for the people, and with the people. It is a tradition which cannot be taken for granted in any democracy. But we are sorely humbled by the fact that the ideals of the people, for the people, and with the people, are being violated.

The administration of the people, for the people, and with the people, can be interpreted in many ways. There is no need to repeat the many examples of how government has been used by those in power to maintain their control over the people.

Robert E. Todd
