This additional deferment as a result of fatherhood constituted an injustice, Colonel MacGrath said, and lege. tice, Colonel MacGrath said, and it has resulted in the calling up for duty of many younger registrants earlier than they normally would have been called.

Colonel MacGrath revealed that the number of dependency deferments in New Jersey has been increasing at a rate of 149 monthly, which is 5.6% of the total monthly registration in New Jersey, On July 1, 1950, New Jersey of the Junior Caoir.

Registrants who filed evidence of fatherhood before the August 25 deadline must maintain a bona fide family relationship with their children in their homes to be eligible for continued deferment.

Failure to maintain this family relationship removes the cause for continued deferment.

# There's Danger Ahead... SCHOOL BEGINS!

Best Friend of the Kids: Civilian Safety

Their good judgment holds many little lives at stake, each day. Obey them!

Off to School - or Disaster? It's Up to Your Car and You! Happy children can often forget But you, as a driver-CANT!

... The casualties mount! More and more school children, struck down by careless drivers lose lives or limbs on today's civilian battlefield - the public street! Now is the time for extra driving caution! The toll of school bells, this Fall, is your warning bell: You can't be too careful behind that wheel. Until that peaceful day, when EVERYONE makes SAFE DRIVING his No. 1 civilian objective - make it an INDIVIDUAL matter with you. Your good example might set some reckless driver on the right road to safety! Show others the way. Be a leader at the wheel! Remember: "It takes years to raise a child - but less than a second to kill one."

Take This Four-Point Pledge for School-Time Traffic Safety: insure yourself - and others - against tragedy!

> POINT ONE: "I WILL DRIVE SLOWLY:" "When in the vicinity of schools, I will keep within the speed limit - or much less than that. I will be always ready to STOP in a flash – for that youngster who may dart from behind a parked car, or the unpredictable 'kid' on his bicycle. I will execute all traffic hand-sign

> POINT TWO: "I WILL OBSERVE ALL SIGNS:" "I will heed signs that warn me where to-and from school traffic is heaviest. Before coming to a crosswalk or safety zone - supervised or not - I will give the proper hand signal, and if children are about to cross, come to a full STOP."

POINT THREE: "I WILL NOTE THE TIME OF DAY:" "I will be doubly alert during the hours when school children are on the streets. Recesses, lunch hours, before and after school! These peak periods will find me ever-watchful - and prepared. In bad weather, I will guard against traffic 'unforseeables'."

POINT FOUR: "I WILL KEEP MY CAR TIP-TOP:" "No matter how willing I am, I'll always remember that my car could be weak - just at the crucial moment. I will not handdle the wheel unless I am certain that my car is in first-rate mechanical shape. I will have it

checked and inspected, regularly, to be sure!"
