But No Room For Yours.

In New Jersey colleges, that's a good bet.

If you want your son or daughter to go to college, it's sometimes hard to believe that we can afford to send them away. But we can. At least half of our students go to New Jersey colleges. And many of them are able to afford college tuition by taking advantage of New Jersey's college savings bonds.

New Jersey Savings Bonds are available in a variety of denominations, from $50 to $10,000. They can be purchased for any amount, and are fully transferable at any time. The bonds are issued by the New Jersey State Lottery Commission, and are backed by the full faith and credit of the State of New Jersey.

At New Jersey colleges, savings bonds are accepted as tuition payments. And they are also eligible for state and federal tax credits.

So if you want to make sure your child has a college education, consider investing in New Jersey Savings Bonds. They are a wise choice, and a great way to help your child achieve their dreams.

VOTE YES ON NEW JERSEY BONDS.

New Jersey Savings Bonds are the smart investment for your child's future.
