A Parade Just Doesn't Happen To ride down Lafayette Avenue on Tuesd

one would ever guess that a parade lasting three-hours way of thinking, the aftermath was indicative of the orderly yet happy day celebrated here in Hawthorne for.

While no one has an exact count of the number of ectators, one estimate is that 8,000 to 10,000 people vatched this birthday parade. One of the drivers of the antique cars, who attends many such anniversary celoprations, remarked that this was the largest crowd he ever saw at an affair of this sort.

Yet in spite of the heavy crowd, the day was almost rithout law-breaking incident. According to the police of march and a few persons who required first aid due to the hear-a minor amount of trouble when you consider the thousands of people crowded together during the ongest heat wave in about 20 years.

At the refreshment grounds set around a gigantic tent on Wagaraw Road, the only complaint we heard ves that the firemen couldn't cook the food fast enough to keep up with the crowds. We, personally, remained at the site until 7 p.m. with several other families, all of us with small children, and the only blotch on our good

Police Chief Charles F. Kenyon, lean Hughes and Isabel Hopper.

Anyone who witnessed this procession of endless marchers and floats can easily realize that a parade and celchration of this magnitude just doesn't happen all by

### An Extra Weekend

We applaud the action of the Department Public Works in arranging to have the pool open this weekend. Residents will be able to swim at the borough facility from 12 noon until 7 p.m. on Saturday and Sunday. This action is a step in the right direction. However with the heat wave we are experiencing at the opening of school and the one we had early in June, we would like to see the pool open after school for pre-

season and post-season swimming.

**Questions Over Leased Park Land** 

County Park Commission by the Hawthorne Board of

Education raises some serious questions. First of all, why

was the matter passed by the Park Commission without

the transaction being officially and publicly announced to

the taxpayers of this borough. The lease is dated June 21,

yet prior to the questions raised at the September meeting

by residents in the area, the rest of Hawthorne was in the

Certainly no one is going to complain about a rental

feé of one dollar a year, especially at today's inflated real

estate costs. Yet had the matter been presented in a

proper manner — through a press release by the public relations committee or by an announcement at a public

meeting, the public might feel that the Board of Education

from the area, we assume, at the request of those citizens.

Why wasn't the press invited? Why weren't all residents

the regular school board session last Thursday, adjoining

property owners expressed concern over the flood plain

that exists from Rea Avenue to the athletic field. They

wanted to know the exact use proposed for the land and

how it is going to affect their property values. Their questions are valid. The Board of Education responded

by stating that they are awaiting recommendations from the high school administrators concerning the use of this

Another question is cost. We fail to see how the land would be useable without landfill and grading. In its present state, it is thifficult to visualize a major team sport, such as football or soccer, practicing on this property.

As a matter of fact, the school board must consider the federal laws governing flood plains, before any work is done. This will cost money to research, as will any engineering or topographical studies that may be necessary.

We have questions also about the statements by board members that utilization of this park land will free the athletic field for use by the girls. This same reasoning was applied in 1971 when the renovation of the field was appounced. To date the only new girls varsity sport is the

announced. To date the only new girls varsity sport is the tennis team begun this fall.

We believe the reason girls sports are lacking is not because of facilities. It's also the money it would take to

provide uniforms, transportation, coaches, equipment, of ficials, etc. Otherwise why hasn't someone thought of

using Franklin Field for a girl's varsity field hockey team?
All these questions deserve answers. The public has

Such moments are normal, but when compared to a real crisis, Consider the plight of Al Lydecker, Jr., only 26 years old, who has been in critical condition since August working on a roof at his vacation home in Vermont and fell to the ground, landing on his feet. At broke some vertabrae. While in the hospital, a lung collapsed and surgery was performed to remove his lung, making it necessary to by pass his heart. Now his kidneys are not functioning properly and he requires a kidney machine. Lydecker's friends have started a fund called the Albert P. Lydecker Fund c/o Hawthorne Fire Co. 2, 2 Llewellyh Avenue, Hawthorne. In adition to a fund-raising benefit held over the weekend, contributions are being accepted to help with mounting medical expenses. This is about the only way any of us can help at this time.
